U. S. WARNS PERSHING: GET READY!

BAY STATE MILITIA IN TEXAS

GREAT BRITISH DRIVE BEGUN

TAKE 16 MILES OF TRENCHES

French Army Assists the British Forces in a Mighty Smash Against German Battle Front

London, July 1.—The British War Office officially announced today that a great attack had beeen launched against the German lines in the Somme region of France, and that the British had broken the German defences over a front of sixteen miles.

The text of the statement issued by the War Office follows:

"An attack was launched north of the Somme this morning at 7:30 o'clock in conjunction with the French. The British troops have broken the German forward system of defences on a front of sixteen miles. Fighting is continuing.

"The French attack on our immediate right is proceeding equally satisfactorily.

"On the remainder of the rBitish front raiding parties penetrated the enemy's defences, inflicting losses and taking prisoners."

GREAT JOY IN LONDON.

Scenes of rejoicing in London marked receipt of the news of the great British advance.

Regardless of the fact that they had paid their fares, hundreds of persons left the taxicabs and busses in which they were riding to buy papers giving the news of the opening battle. The news venders were unable to cope with the demand for papers.

Exciting scenes were enacted in the restaurants in the West End. The news was issued by the War Office in time to catch the luncheon throngs. The press bureau issued the following notice this afternoon:

WATCH CHANNEL BOATS.

"The War Office states that for reasons of public safety passenger traffic between England and the Continent will be regulated closely and reduced. The public is warned to undertakt no journey unless for serious reasons. There will be a strict search of passengers and their luggage."

This is undoubtedly to prevent spies

BOYS OF THE "DANDY FIFTH" OF MASSACHUSETTS PHOTOGRAPHED IN CHICAGO EN ROUTE TO THE BORDER.

BOYS OF THE "DANDY FIFTH" TAKING THEIR MORNING WASH IN THE TRAIN YARD AT CHICAGO.

TWO DOUGHTY PRIVATES IN THE FIFTH ENJOYING THEIR MORNING BATH IN THE CHICAGO TRAIN YARD.

Pages of pictures showing the New England militiamen on their way to the border will be printed in tomorrow's Sunday American.

FIRST TROOPS OF BAY STATE IN TEXAS

The first troop train of the Massachusetts brigade reached Texas today.

Tonight hundreds of Bay State boys will probably sleep in tents pitched on the river bank, almost face to face with thousands of Mexicans, with whom they may be engaged in a death grapple in a few days.

As mile after mile was clicked off in the rush across Texas, the spirits of the soldiers rose in proportion.

The war spirit was felt by everyone. At every station along the route informal receptions were held in honor of the Bay State troops, one of the first units of the National Guard to reach the border.

Business was forgotten entirely by the townspeople. Everybody took a day off to go to the station and give the troops a cheer. All along the line the coming of the train had been heralded in advance, and in many cases men, women and children waited for hours to give the Massachusetts boys a sendoff.

All the weariness and discomforts of the long trip were forgotten with the end of the journey in sight. The men put up with all petty annoyances with the spirit of true soldiers, but every man of them is glad the journey is finished at last. They were action and hope to have it soon.

Saying Goodby to Chicago.

REPORT TWO BATTERY A BOYS DROWNED ON WAY TO BORDER

Two members of A Battery, Massachusetts troops now on the way to Mexico, are reported to have been drowned while in bathing at Biloxi, Miss. Details and names of those drowned were lacking in the reports.

T. Jefferson Giblin of D Battery, son of Thomas J. Giblin, the East Boston political leader, wired his mother today that he was safe. There is doubt whether young Giblin is correct. It is believed he heard about two New York guardsmen being drowned and believed they were members of Battery A.

Here is his telegram:

Mrs. Thomas J. Giblin, Saratoga Street, East Boston:

I am all right. Other Boston boys drowned from Battery A.

T. JEFFERSON GIBLIN.

There were reports reaching Boston from other sources giving the number drowned as two.

It is thought possible that Giblin may have heard of the drowning of the two New York militiamen yesterday and got the facts confused, believing that two of the Company A boys were also missing.

The New York men were drowned while swimming in the Gascondy River in Missouri. They were Robert Daly and Louis Reitz of Company H, Fourteenth New York State National Guard Regiment of Brooklyn.

Later in the day the troop trains carrying the Massachusetts batteries stopped at the same point and many of the local men enjoyed a swim.

AMERICAN TROOPS IN NEW PERIL

Washington Notifies Pershing of Carranza's Attitude and Danger of Attack by Trevino's Forces

El Paso, Tex., July 1.—A warning was sent from Fort Bliss today to General John J. Pershing at the front, telling him of the strong statement made by General Carranza from Mexico City, and instructing him to be prepared for any emergency, even an attack by the forces of General Trevino, which are drawing in closer to the Pershing camp at Colonia Dublan.

The message was sent by radio as soon as it was received at the fort from Washington, and General Pershing is now prepared against any emergency which may arise.

Following a comparative calm, the message from Mexico City tightened the tension on the border, and the army is again making every possible preparation for eventualities.

Militia forces have begun to reach

MEXICANS RESTORING AMERICAN PROPERTY.

Washington, July 1.—Protests of the State Department against the seizure of property of Americans in the States of Coahuila and Manzanillo have had effect. The department was officially advised today that the Carranza authorities in Cohuila are rounding up livestock and other rolling property taken from Americans and will restore same to the owners at once. In Manzanillo part of the gold and silver taken from Americans already has been recovered, and it it is declared the rest will be restored to the owners at once.

CARRANZA'S DEFIANT NOTE VIEWED AS PLAN TO FORC WAR UPON U. S.

REJECTION OF ALL U.S. DEMANDS EXPECTED

Continued from First Page.

the border. Direct orders from Secretary of War Baker threw a shade of secrecy about the movements of the troops and forbade the publication of the number and disposition of the State guardsmen, but it can be stated that New England forces were the first to reach the border.

PREPARE CAMP SITE.

The arrival of the militia was preceded by the coming of thirty officers to prepare camp sites and report their strength and equipment to General George Bell, Jr., commander at Fort Bliss. The first camp site already has been selected by the regular army officers. It was pitched within easy rifle range of Fort Bliss on a stretch of gaunt land where the sun beats its hottest and the suffocating wind from the hills is the only relief during the blistering day.

The regulars who turned to watch with a paternal and perhaps a twinkling eye the arrival of the guardsman were surprised at the spirit of their younger brothers in arms.

Although the desert sun was early at its scorching work, the militiamen swung along uncomplainingly with full packs and rifles at slant and anxious only for service.

With the arrival of the militiamen the plans for the invasion of Mexico by another expedition marching through Juarez may be said to be near completion and their fulfillment rests only with the command from Washington and Mexico City.

AMPLE PROTECTION.

With the full force of militiamen assigned to this district here there will be ample protection for the border points in the El Paso district and the maintaining of a border patrol that will strengthen weak points all along the boundary.

The first of the militia officers who arrived last night took up temporary headquarters at El Paso hotels, but they showed that they were not going to attempt to continue the "soft" existence when they turned out at daybreak and joined their men in camp.

The work of assigning the militia to particular posts along the border will be started as soon as the men have had a chance to become acclimated.

The fear is growing here that Carranza's delay, in replying officially to the American note is for the purpose of allowing his commanders to place their troops in strong positions about Juarez.

WOULD ARRANGE BATTLE.

Over night, apparently, he repented this step and grew impatient. At latest reports he crossed the line to visit Colonel Dodd and made an attempt to arrange the program for the first battle. Colonel Sagae bade him be patient.

The return of the American cavalry horses and equipment taken at Carrizal has been accepted, twenty-three American animals having been herded across the international bridge. The condition of the animals is best described by a cavalryman who witnessed their return. He said:

"It's not that any of the mounts was stove in. But they look as if these Mexican hombres had been riding 'em to death. And I reckon they didn't get any kind of forage at all. They were skinny and frightened and hungry. While we were in the saddle we fed 'em out of the river, they began eating refuse lying in the streets."

STILL RUSH TROOPS SOUTH.

It was explained at the War Department that "it would be detrimental to the nation's military interests to give out in the detail the number of troops mobilized or their place of concentration."

While every step is being taken by the War Department to hasten mobilization of troops on the border, it is apparent that there is the utmost desire to keep all information possible from Mexican officials in view of the expected break.

War Department officials express great gratification at the progress of militia mobilization. While refusing to give figures, it is stated that all the troops called out would be on the border in from three weeks to a month from the time they were called out, a week ago last Sunday.

Army officials said they "were tremendously well satisfied," with the showing made, as compared with the delay in mobilization during the Spanish-American war.

MEXICO PROTEST KILLING.

The State Department has received another note from the Carranza government through its representative, Eliseo Arredondo, against the alleged killing of a Mexican customs official by American soldiers near El Paso. The State Department has not been advised from American sources of the killing.

The Mexican embassy has received a telegram from Carranza saying not more than 300 Americans had left Mexico City in response to the State Department's warning; stating that Americans had never been molested, "although those who have sought trouble usually have been accommodated," and reiterating that American soldiers were responsible for the trouble at Carrizal.

Samuel Gompers, president of the American Federation of Labor, has telegraphed Carranza expressing appreciation for the release of the American cavalrymen, which Gompers had urged, and expressing the hope that a settlement of the trouble between the United States and Mexico may be reached.

WASHINGTON CONSIDERS NOTE FROM CARRANZA AN INSULT

Washington, July 1.—The defiant statement issued in Mexico City by the Carranza government was construed in Washington official circles as designed to force the United States into war.

Administration officials, while refusing to take official cognizance of the Mexican statement, accepted it as forecasting a flat rejection by Carranza of the demands made in last Sunday's ultimatum, although the statement itself was made in reply to the preceding note by this government.

This statement, together with other advices reaching Washington, and which indicate that Carranza had determined to stand by his orders to General Trevino, to attack American troops if they move in any direction but northward, has convinced officials that a break cannot be averted.

REGARDED AS INSULT.

Although not officially transmitted to the United States government the statement issued in Mexico City by Carranza's foreign minister was received in Washington as an insult. The fact that the communication was issued under the signature of Carranza's responsible minister and was a reply to an official note of this government, gave the document a semi-official character.

State and War Department officials realized that the shock to American sensibilities, the blow to national pride by the Mexican statement undoubtedly will rouse a storm that may force the hand of the administration.

THREE COURSES FOR WILSON.

1—He may order General Pershing to maintain his position in Mexico awaiting Carranza's threats to attack the United States troops if they do not withdraw.

2—He may carry out his plan of going before Congress to ask authority to use the American army and navy in Mexico and begin an aggressive campaign.

3—He may withdraw troops from Mexico.

Administration officials who consider General Pershing's expeditionary forces.

Pershing, it is reported, has drawn in his forces to be ready to withstand, with an estimate of between 12,000 and 15,000 men, the attack of Carranistas, said to number 30,000.

Each passing hour strengthens the Carranza forces along the Mexican Central line through Guerra Blanca, Villa Ahumada and Moctezuma to Chihuahua city. Mexican officials in Juarez boast that there are 10,000 soldiers at Villa Ahumada and declare that the Americans do not dare attempt to attack them.

From Columbus comes censored reports that truck trains were stopped for twenty-six hours after American scouts had brought word of the massing of Mexican soldiery all along the communicating line. Sniping has been reported in the passes through which the truck trains must pass to reach the headquarters of the expedition.

But the delay of Carranza is also giving the militia time to reach the border. With the next week or ten days the full force of State guardsmen is expected to be posted along the boundary.

If one seeks economic relief from the strain one can find it in the neighborhood of Nogales, Ariz. Here General Norris Harveyen exploits his notions of military procedure. He had a meeting with Colonel Sagae, in which he and the American agreed there would be no battle until word was received from Washington and Mexico City.

WOULD ARRANGE BATTLE.

Over night, apparently, he repented this step and grew impatient. At latest reports he crossed the line to visit Colonel Sagae and made an attempt to arrange the program for the first battle. Colonel Sagae bade him be patient.

The return of the American cavalry horses and equipment taken at Carrizal has been accepted, twenty-three American animals having been herded across the international bridge. The condition of the animals is best described by a cavalryman who witnessed their return. He said:

"It's not that any of the mounts was stove in. But they look as if these Mexican hombres had been riding 'em to death. And I reckon they didn't get any kind of forage at all. They were skinny and frightened and hungry. While we were in the saddle we fed 'em out of the river, they began eating refuse lying in the streets."

STILL RUSH TROOPS SOUTH.

VON JAGOW SCOFFS CHARGE THAT TEUTONS ARE STIRRING UP MEXICO

By WILLIAM BAYARD HALE.

Special Correspondent of the International News Service.

Berlin, July 1 (via Copenhagen).—During an informal conversation with the Minister of Foreign Affairs which, not unnaturally, turned largely upon Mexico, and in the course of which His Excellency exhibited an extraordinarily well-informed understanding of Latin-American conditions, Minister von Jagow expressed to me sentiments which I have been desirous of communicating to America.

Unfortunately for this design the sentiments of the German Foreign Office might be misinterpreted. I feel confident, however, that Herr von Jagow will not object to my relating that he refused to believe there is a possibility of the people of the United States and Mexico facing each other in armed conflict.

DENIES GERMANY AIDING.

The minister expressed himself in a sense purely humanitarian and simple, giving no opinion whatever relative to the matters in controversy between the United States and the Carranza government. Herr von Jagow remarked, incidentally, that when Germany, in common with the other powers, recognized Carranza as head of the de facto government in Mexico in November, 1915, she only followed the lead of the United States.

The Minister responded with indignation and ridicule the suggestion that German machinations were in the slightest degree responsible for the disorders of the Mexican border.

WOULD LIMIT WAR.

"Equally preposterous, no doubt," Herr von Jagow added, "is the suggestion that the Japanese are behind the Mexican troubles. It is superfluous to go abroad to find an explanation for a crisis which is sufficiently explained by purely internal conditions.

"It is certain," His Excellency continued, "that there are duties which a nation owes itself, its dignity and its destiny that may sometimes have been forced by the sword. These each nation must determine for itself. But we, over here, have seen too much of violence to desire a like sad experience for others. The efforts of Germany are earnestly directed toward the limitation, not the extension, of war."

FUNSTON DENIES HE DECEIVED OBREGON, AS CARRANZA CHARGES

By JOSEPH TIMMONS.

San Antonio, Tex., July 1.—General Funston declares there was no deception of Obregon by himself or General Scott concerning the crossing of the American troops into Mexico following the Glen Springs raid. This charge, contained in Carranza's last note to the State Department, was emphatically denied when that note was made public. And following the repetition of the charge in the memorandum just published in Mexico City, Funston repeats his denial with emphasis.

"The Sunday the report of the Glen Springs raid was made," said General Funston, "our conference was held at the immigration station, and when General Scott and I arrived a newspaper extra was out with a statement that our troops had already crossed the river in pursuit of the bandits.

Obregon had heard of this and asked me if it was true. I assured him none of the troops had crossed the international line. I did not tell him they would not cross, nor anything he could construe as meaning they would not.

"Later that same day I gave Major Langhorne his orders not to stop at the river if they found any hot trail. But at no future meeting was the Glen Springs raid or the crossing of our troops mentioned, either by Obregon or by us. Both sides avoided mention of it and the charge that Obregon was misled is utterly baseless."

Prominent Men Favor Mediation in Crisis

The possibility of the Pan-American powers uniting with the government of this country in bringing about a peaceful solution of the present crisis in Mexico is emphasized in a public statement by Charles W. Eliot, Richard Olney, Henry L. Higginson, Samuel J. Elder and A. Lawrence Lowell.

The statement explains that the present Carranza regime is a government de facto created by Pan-American action, and that, consequently, it was proper when a difference arose between that government and the United States, Pan-America should have more than a friendly interest in the [illegible]

MEMBERS of E Company, Eighth Regiment, doing some limbering-up work in the streets of Norwich, N. Y., where the troops detrained for exercise. Colonel Frank A. Graves reviewing a parade of the regiment in Norwich.

FIRST OFFICIAL MEXICAN STORY OF CARRIZAL

"On the twenty-first of the present month at 7 o'clock in the morning there appeared an American force composed of about eighty or a hundred men.

"By order of General Felix Gomez I went to confer with the chief of this force to ascertain what was its object. The American commander informed me that they came in search of a party of bandits which were in that vicinity. If answered him that there were no bandits investing that locality, because the section was perfectly guarded by Constitutionalist forces.

PERMIT WAS REFUSED.

"He then said that his troops desired to go to Villa Ahumada to look for a deserter, to which I answered that I had no permit to allow Americans to go in any direction save northward.

"He replied that he had orders to proceed to Ahumada and that he would even if he had to fight.

"I then returned to General Gomez and reported the result of the interview and then he went personally to speak with the American chief and asked the same question I had and received the same answer. General Gomez said he would regret if a conflict took place between the forces and he suggested waiting for three or four hours until the military commander at Juarez could be telegraphed for permission for the Americans to proceed to Villa Ahumada.

But the arrogant American chief replied that he could not waste any more time and that he would pass despite us. General Gomez told him to do it if he could.

"After this my General and I returned to where our forces were, the American officer doing the same, he later preparing his cavalry and ordering his soldiers to advance in line of fire upon our troops which were composed of second, third and fourth squadrons of the Second Regiment which, mounted, had remained deployed in line of fire without moving.

AMERICANS FIRED FIRST.

"It was the Americans who first opened fire at a distance of eighty meters, this fire being answered briskly by our valiant soldiers. This first firing later developed into a battle which was hot and intense for two hours.

Our first line of soldiers resisted the enemy with valor. Gomez was killed in the first fire. I took general command of the forces and ordered the first squadron of the Second Regiment to advance on the right flank of the enemy and First Regiment to his left flank.

"This movement was accomplished precisely, the enemy abandoning their dead and their horses and their arms.

"We took twenty-two prisoners. Twelve Americans were killed. Our deaths were thirty-one."

Make Plans to Raise 250,000 Volunteers

By International News Service.

New York, July 1.—The Department of the East, under command of Major-General Leonard Wood, has completed preliminary plans for mobilizing a volunteer army of 250,000 in the event of hostilities with Mexico. Concentration camps in the various States have already been selected.

Army officers today admitted privately that they considered the Mexican situation had reached a most critical point. The outbreak of actual hostilities, they believe to be imminent.

Munitions manufacturers have been interrogated about the capacity output of their factories for the delivery of field artillery and ammunition, machine guns and other ordnance supplies.

Arrangements have been made to use the militia mobilization camps of each of the twenty-one States in the department as concentration points for the volunteers.

PRESIDENT OPPOSED TO WAR

bs Offered o All Rejected Army Recruits

Philadelphia, July 1. anufacturing firms in this city appealed today to Captain A. A. King, in charge of the United States army recruiting station in Arch street, to send them all of the men who have been rejected by the recruiting officers. He said that the firms promised to pay the men from $3.50 to $5 a day.

U. S. ONLY AWAITS MILITIA

By International News Service.

Washington, July 1.—High army officers are responsible for the statement that the State Department's negotiations with Mexico have been affected by the fact that the National Guard is not yet prepared for fighting.

They declared the State Department is prolonging negotiations until 50,000 of the National Guard are actually encamped and furnished with adequate equipment.

When the National Guard is prepared, officers believe, any Mexican movement which threatens American life or property on the border will be followed immediately by the crossing of a new army into Mexico. They assert that the attitude of the administration is against taking the initiative in a declaration of war but they predict there can be no escape from such action in the near future.

The number of troops given by officials as necessary for an initial move across the border is 50,000. That figure is in accord with plans formulated several days ago. It was believed at the State Department that Carranza would refuse to release the twenty-three American prisoners and that the White House would be obliged to order the army to Chihuahua City to release them.

It has been revealed that the rush order sent to department commanders to hurry militia units to the border, irrespective of sectional divisions, was to get the militiamen to the Rio Grande and thus permit the whole Federal army, including General Pershing's expedition, to perform the task.

Military strategists declare the fact that the expedition to Chihuahua City was not necessary has not changed the situation materially. They say if Carranza continues to enforce his order to hold Pershing's troops at bay, another clash is inevitable, and that the army will be required for such a disposition of the forces on the border and in Mexico as is now being arranged.

SAVE BAY STATE TROOPS FROM DYNAMITE

Muskogee, Okla., July 1.—The Second Regiment of Bay State infantry was saved from possible annihilation, it became known today, by the vigilance of the Parsons, Kansas, police, who claimed to have frustrated a plot to dynamite the Second's troop train.

Shortly before the troop train was due to pass through Parsons, the police arrested two Mexicans armed with twenty pounds of dynamite with which they are charged with having plotted to blow up the train.

The Mexicans arrived on a night train at Parsons. A sweeping investigation was started at once to determine whether others were implicated in the "plot."

The men of the Second were told that while there was no evidence that their train had been singled out, it was certain that if the dynamite had been placed on the track when planned, the Second would have been the train to run into it.

REPORT AMERICANS KILLED MEXICAN

El Paso, Tex., July 1.—In response to an official protest from Juarez officials, American army officers were detailed today to investigate the alleged shooting by American troops of a Mexican civil guard near Ysleta, twelve miles from here, yesterday. According to the Mexican protest, the Mexican was proceeding about his business when United States troopers fired across the international boundary.

CALIFORNIA UNITS LEAVE FOR BORDER

Washington, July 1.—The War Department today announced that companies of the California National Guard, infantry, cavalry and field artillery, entrained last night for the border.

Sends Infantry.

Sacramento, July 1.—The Second Infantry, with 1,187 men and fifty-five officers, commanded by Colonel Ford of Chico, was the first infantry to leave for the border.

"WAR BEAUTIES"

Help "Tommy" Get Well

The European War has developed in London a sparkling group of actresses and music hall girls who are favorites with officers and soldiers invalided home from the front. These "war beauties," as they are called, cheer up the war-weary men and help restore them to health. See a whole page of these fair ones in tomorrow's Sunday AMERICAN.

FIRST OF THE MILITIAMEN FROM MASSACHUSETTS ARRIVE IN TEXAS

MEXICANS MET BY NINTH

5TH LEADS IN RACE TO BORDER

TWO U. S. TROOPERS WOUNDED AT CARRIZAL ARE DEPICTED AT EL PASO, TEXAS, ON WAY TO ARMY HOSPITAL.

A gallant United States soldier of Captain Boyd's command, wounded in the battle with the Mexicans at Carrizal, is photographed while being removed from the motor ambulance which brought him from General Pershing's headquarters to the base hospital at El Paso, Texas.

Sam Harris of Troop C, Tenth Cavalry, U. S. A., photographed upon his arrival at the base hospital at El Paso, Texas., after being wounded in the fight with the Mexicans at Carrizal. The officers on each side of the brave cavalrymen are pointing out the course through Harris' body taken by the bullet.

By BERT FORD.

Clovis, New Mexico, July 1.—Aboard Bay State Brigade Troop Train.—The first troops of the Massachusetts brigade were due at the Mexican border late today, and the "Fighting Ninth" expected to sleep under canvas, face to face with the Mexicans tonight.

The easement to begin in earnest the work for which they have travelled the length of the United States lent real interest to the boys' first encounter with Mexicans, 800 miles north of the border.

The Bay State boys won a bloodless victory. The Mexicans were armed with shovels and pickaxes. There were six of them, typical of the inhabitants south of the Rio Grande. But this was a railroad section squad and they surrendered after a volley of grins, when the Bay State soldiers showered them with silver and cigarettes.

The "encounter" occurred on the outskirts of North Jennings. The Mexicans were first sighted by the Ninth scouts from the observation platform on the roof of the caboose and all hands climbed down to hold converse. The Spanish and imitation Spanish hurled at the half dozen natives of Chihuahua would not have been sanctioned even by a correspondence school.

LIKED 'AMERICANOS."

The Senors of the track hung their heads and tried to hide their mirth and then their spokesman in broken English let it be known that they "like Americans" and would not go back to Mexico for anything. They have been working along the Frisco line for four years.

After that the true types of the Southwest sprinkled the crowds at every station. At Pawnee, Okla., the home of Pawnee Bill, the whole town turned out. Pawnee Bill, the local king, was on the road with his show, but his townspeople did the honors.

J. W. Harris, a veteran, came down to the train with a large American flag on his shoulder, and the Ninth's boys cheered him. The station was trimmed with flags, and there were flags strung to fences and trees and even the cowboy lender waved the glory.

Here the boys from Boston saw their first full-blooded Indians of the trip. They saw cowboys on bucking ponies and the lounge boys observed the higher the bronchos kicked their heels.

SEE PAWNEE BILL'S HOME.

The railroad agent pointed out the red stone mansion of Pawnee Bill on the hill, a home that would encircle Cerry Hill, and beside it, in marked contrast, was his first home, a ramshackle log cabin and a barn with a conical thatched roof.

At Morrison, the station beyond Pawnee, the children were a feature, dainty little ones in Summer finery, all crimped up to see the soldiers. Max Boyer, a sturdy chap of nine years, carried a placard, nailed to a pole, which read: "Greetings of Morrison, Okla."

Verna Liggett, aged four, as pretty as a little angel, came down with her daddy to give a bouquet to the "highest soldier man" on the train. She balked some when General Sweetser hopped off his Pullman in bath slippers to accept the gift and then she stepped up and the judge of the Malden Court hugged her and promised to write her a letter from Mexico.

Tom Perdue, a patriarchal Indian scout, who is near and dumb and who, with signs and the aid of neighbors, told the correspondents that he was 107 years of age, came down to shake hands with the boys from Massachusetts. Tom, in cracked voice, gave them advice. He cautioned them never to let any Mexican take them prisoners, but to shoot to kill, be sure of an eye, and straight for the heart. The old scout had a sheet of white hair and a beard that would make an Al poster for a patent hair tonic.

GIVE BOYS WHOOP!

The children told the Boston boys that they hoped they would come back soon and "for God to kiss you all."

The receptions at Springfield, Mo., and at Enid, Okla., were the most enthusiastic of its route to date. At Springfield the Young Men's Business Club raised a welcome fund. The station was swarmed when the Massachusetts troops rolled in Thursday evening. Two hundred members of the club carried baskets through the train filled with cigars and cut tobacco and souvenir post cards and tonic, known as "pop" in these parts.

At Enid, Okla., which was reached at 3 p. m. yesterday, the women of the local branch of the Red Cross aided by a troop of school girls in party dresses, served the soldiers with coffee, fresh buns, pies, cake and tonic. Here a booth erected in an hour in an orchard near the station.

Dr. Wallace A. Alther, secretary of the Commercial Association, was out of town, but his wife opened a telegram and announced that the Bay State troops would reach Enid in two hours. The women telephoned from house to house and a banquet was never more speedily prepared in these parts nor for a larger number of guests.

The receptions have been like tonic to the dusty and tired Massachusetts men. They scan the prairies for every settlement and yell themselves hoarse at the crowds as they pass. When stops are made they mingle with the crowds and swap addresses and receive letters and keepsakes. The girls snap them from every angle.

SWEETHEARTS IN EVERY TOWN.

Mrs. H. G. McKeever, who with Mrs. Aitken led in the preparations at Enid, was an innocent cause of amusement when she asked Colonel Logan to help her lift a coffee tank with scores of privates near. But the bachelor commander of the Fighting Ninth and judge of the South Boston District Court was game. He obeyed. When Mrs. McKeever learned between dips that the Colonel had assisted her she blushed and tried to apologize and then turned the point by saying that only "a Northern colonel could have been so gallant."

All through the day and night the "yip-yip" of the plains cut the air as the Bay State troops rolled across the oil regions and prairies.

Lewis Arensberg, C Company, received a love letter at Dixon, Mo. The envelope was addressed, "To dear little soldier boy." The letter read:

Dear Little Boy:—

Hope you and your dear boy friends have a pleasant trip and get back to your homes safe and sound.

Would like to hear from you and have your picture. Will send one in return. I am eighteen years old, light complexioned, blue-eyed, and light hair—weight 110 pounds. Please tell me all about yourself and answer this if you can find time.

My home is in Sligo, Mo., but I am now visiting in Dixon. Will be at home after July 5. Dear, you look so sweet, would like to be going along with you. This will be all for this time. Hope you can read this, and be sure to answer it.

STELLA GODBEY.

P. S.—I'm the little girl in the blue dress. Hope you remember me and send me a nice letter. Don't wait long to send a note, and excuse paper. Lovingly, S. G.

Private Joseph J. Lynch of Blackstone, C Company, received a letter from a very pretty blonde of seventeen with her picture enclosed. The note read: "Please write to me soon, and also send your picture. So by-by. I love a soldier boy."

THEY ALL WIN THEM.

Trumpeter George Gray, Fifth Regiment, an orderly in General Sweetser's Pullman, received the following on a card: "My heart feels glad to see so many brave boys. God bless you all and may He speed you and may the victory be yours. You have all the sympathy that my poor heart knows today. Will remember you always in my prayers. Write please."

These notes have presented a problem of psychology which the Boston boys have discussed pro and con before lights out on the way to El Paso.

RECRUITS DEMAND INQUIRY INTO CONDITIONS AT FRAMINGHAM CAMP

By THOMAS F. PHELAN.

Camp Whitney, Framingham, July 1.—Appeals were forwarded today to Congressmen by "rookies" in camp here, demanding a federal investigation into conditions, which they declare are disgraceful in a country as rich as the United States.

In addition to the complaints that they have been pauperised by being forced to depend on charity for their clothing, instead of receiving it promptly and in adequate supply as their right from the United States or the State government, a specific charge was made today that some of the meat furnished the recruits to eat yesterday was tainted.

These men, who enlisted in a fervor of patriotism, eager to be given guns and ammunition and an immediate chance to fight, object with all the energy left them by the treatment they have endured, to being made objects of charity.

RECRUITS CITE APPEALS.

They declare that fully three-quarters of the men who enlisted at the call of their country are still without proper underclothing, without uniforms and without arms. They also insist that, had the suggested the support they have given at the hands of the government they never would have enlisted.

And they argue that the treatment they have been accorded is the worst possible inducement the government can offer to secure other recruits, and an arraignment of the good faith of the government in its present attitude toward Mexico.

To support their claims they cite the official appeals to charity sent out by some of their provisional officers to Mayors of cities and selectmen of towns. They extend the quest to those who really want to know conditions to visit them and see for themselves if restrictions are not imposed to keep them visiting and inspecting.

The concerted demand was heard [illegible] cottage on the [illegible] th appreciation of their sacrifice, published in the newspapers, already begins to bear fruit.

PLEAD FOR UNIFORMS.

Installation of shower baths to secure them a daily bath was rushed yesterday. Men who had toiled and sweated under conditions that would result in wholesale desertions were then less eager to fight for their flag were able to refresh themselves with a shower bath for the first time since they had arrived in camp.

In other ways their treatment was somewhat bettered. There was more consideration on the part of those whose duty it is to provide for them to see that they receive enough food without humiliating them.

These recruits declare that they could perhaps even enjoy it all if they were dignified with uniforms and equipment to make their manhood real and put some point to their drilling.

PREPARE FOR VISITORS.

Preparations were made today to receive the crowds that are expected to swarm to the camp tomorrow. The polling of the camp will be undertaken by the First Corps Cadets, who have done everything in their power to make the recruits' life more endurable, even to snaring private equipment, when this could be done with William McCade, who went about the camp collecting to secure provisions for the men, found prices to be so high that in man cases he indignantly refused to do any business. The only reasonable merchant encountered was a German, who said that he would not be mean enough to raise his prices to the soldiers who were giving their time and perhaps lives for their country.

Colonel Graves accompanied Mayor Edwards and his wife to the municipal baths in the mayoralty automobile and looked on for a time while the boys enjoyed themselves. Major Frank S. Elliott, battalion commander, had the men all back at the station ready to entrain at 10:30, but there was no train.

At 11:15 a Santa Fe train, made up of steel coaches, was furnished, but it was impossible to secure another Pullman car and the officers were forced to put up with the inadequate car in which they had ridden from Chicago. And against which Major Elliott protested.

CALL CARS A DISGRACE.

While waiting for the Santa Fe train some of the officers were informed by railroad men that it was a disgrace to send troops over the road in the cars which had brought them from Boston. They were old wooden coaches, and while the Santa Fe was apparently unable to provide sleepers it did furnish steel cars. The troops were entrained and ready to start, but it was not until more than an hour later that the train got under way.

After proceeding for a short time it again halted, and the prospects are that the outfit will not reach El Paso until Tuesday.

A number of troops went through Kansas City while the Eighth was there, including a part of the Massachusetts cavalry and a Vermont organization. The Massachusetts cavalry outfit did not leave until the day after the Eighth, but it is being rushed through, and it was understood that rush orders were given that there has been nothing but delay after delay.

The news was obtained at Kansas City that Carranza had refused President Wilson's offer of mediation in reply to his note, and that additional troops had been called for.

The men became even more impatient at the delay, and after the train had pulled out they sat talking of the situation on the border for some time, being unable to sleep because of excitement and heat.

MEN IN GOOD CONDITION.

Despite their long journey and cramped quarters all the men are in good condition. This morning when the train reached Goodhouse, Illinois, at 6:30 and the troops were detrained for their daily limbering up exercises, they hiked around the town in good style, although the towns-folk were standing in shady places and mopping their faces as they watched. At 10:40 the Mississippi River was crossed, and considerable disappointment was manifested because of the smallness of the Father of Waters.

At this point the river was not very wide, but the yellow color was much in evidence.

A short time later a wild shout went up from the cars when the train reached Mexico. It was Mexico, Missouri, and only a short halt was made there.

Major I. W. Cutter, the regimental surgeon, completed the inoculation against typhoid of the entire battalion today and to-morrow will give them the smallpox inoculation. He works extremely fast, and he and his assistant went through the entire train in a comparatively short time, giving the treatment to all who have not had it within three years.

Captain Stillwell, acting adjutant, almost fell off the rear end of the train several times while it was going through Missouri, owing to his rapidity in turns to view the scenery. He is a graduate of the University of Missouri and knows the country thoroughly. He said that there was a large number of military academies and girls schools in that section, and that the thermometer sometimes reaches 110 in the shade.

Present Corncobs to Bay State Troops

By R. J. MERRICK.

Sedalia, Mo., July 1.—Aboard Bay State Cavalry Troop Train—The Bay State troopers are all breaking in huge corncob pipes today, presented to them at Washington, Mo., by a delegation of citizens who came to the station to give the boys an ovation.

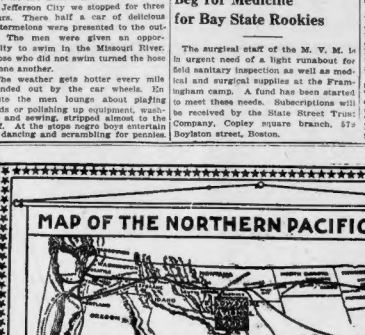
The morning was spent in setting up exercises and pistol drill, and then the men were set to grooming their horses to insure their being in as fit condition as possible on arriving at the border.

Since crossing the Mississippi we feel that we are almost at our destination. At Jefferson City we stopped for three hours. There half a car of delicious watermelons were presented to the outfit. The men were given an opportunity to swim in the Missouri River. Those who did not swim turned the hose on one another.

The weather gets hotter every mile pounded out by the car wheels. En route the men lounge about playing cards or polishing up equipment, washing and sewing, stripped almost to the buff. At the stops negro boys entertain by dancing and scrambling for pennies.

Beg for Medicine for Bay State Rookies

The surgical staff of the M. V. M. is in urgent need of a light runabout for field sanitary inspection as well as medical and surgical supplies at the Framingham camp. A fund has been started to meet these needs. Subscriptions will be received by the State Street Trust Company, Copley square branch, 579 Boylston street, Boston.



You Should Know More About Your Own Country

Books and maps are instructive but complete knowledge comes from seeing.

Education and pleasure should be combined in vacation trips.

This is possible if you go to the North Pacific Coast Country via the Northern Pacific Ry. It takes you through seven of the most beautiful and resourceful states in the Union.

Yellowstone Park the original and greatest national park is near the main line. Stops are permitted on through tickets.

Three mountain ranges are crossed and a great variety of unequalled scenery is presented to the traveler under conditions which make for the greatest enjoyment and satisfaction.

The wonderful record of development in the country traversed by the Northern Pacific Ry. during the past ten years is but a beginning of a greater future of which you should be informed even if you cannot participate in it.

Alaska a veritable wonderland with its untouched almost as yet resources can be reached with a short and delightful steamer trip from Puget Sound.

The Northern Pacific offers you this opportunity with its low round trip summer tourist fares.

On sale daily May to September. Travel Northern Pacific and get additional scenery and service at no additional expense.

Two perfect trains daily from Chicago via St. Paul and Minneapolis and one train daily from St. Louis-Kansas City to North Pacific Coast Points.

Great Northern Pacific S. S. Co. from Portland, other steamship lines from Puget Sound Points or Shasta Rail Route to San Francisco.

Personally escorted tours weekly from Chicago and through Pullman cars daily from Chicago, St. Paul, Minneapolis, Kansas City and Pacific Coast Points to Yellowstone Park.

THE BOSTON AMERICAN SCORES GREAT 'BEAT'

The Boston AMERICAN gave to the reading public the statement of Mexico in reply to the United States several hours before any other Boston newspaper.

The International News Service secured this highly important news in competition with the world's various news gathering agencies and by its enterprise enabled its clients to distance their competitors.

8TH BAY STATE REGIMENT TRAIN JUST ESCAPES BEING DERAILED

By HARRY A. BENWELL.

Newton, Kan., July 1.—En route with Eighth Regiment.—A near derailment due to a torrid temperature of more than 100 degrees, the fact that railroad men declared the cars that have been carrying the troops were unfit for the shipment of cattle, and most important of all a bath for everyone at Kansas City, were the features of today's journeying on the Eighth.

The near derailment took place at Gillams Hill, near Glasgow, Mo., about 125 miles from Kansas City. The sun warped a rail out of position and a serious accident was averted only because a track walker discovered what had happened and flagged the train. The rail was twisted into an S shape, and had the fifteen-car train struck it at a speed of thirty miles an hour there is no question but what heavy loss of life would have resulted.

The discovery was made when the train was running at a slow pace and the men were sweltering in the hot cars. To add to their discomfort many of the men who had but one set of underclothing, owing to the fact that none has yet been issued, had been forced to wash it and it hung on lines stretched among the ceilings while the owners sat about more or less naked and waited for it to dry.

TRAIN HELD UP.

The train was held up nearly an hour while the railway was being repaired, and was then pulled slowly across. An idea of the intense heat may be obtained from the fact that the rail in warping lifted the wooden ties out of place. The thermometer in the headquarters Pullman registered 94 with electric fans going, and the temperature outside was 102. Kansas City was reached at 5 o'clock, and the usual delay was experienced. Railroad men squabbled as to what time they could start the outfit going again, and finally representatives of the Santa Fe, who took the train over from the Chicago & Alton, announced the section would leave at 11 o'clock. Colonel Graves had previously wired, on the suggestion of Captain Thomas P. Brown of A Company, asking if arrangements could be made to give the men a bath.

He was told that the troops could be accommodated, and the men were marched up from the train through the big station to the street, where they were greeted by Mayor Edwards and other city officials. A and B Companies were taken to the Municipal baths, a part of the park system, while C and E Companies went to the Central Y. M. C. A.

With shouts of glee the men tore off their uniforms and plunged into the tanks, where they soaked themselves for nearly an hour. This was the first real bath they have been able to take since the troops embarked at Framingham and they were much in need of it, to say the least.

ALL HAD A CHANCE.

All had a chance to bathe except guards who were left with the rifles and equipment at the cars, in charge of Lieutenant George E. Elliott of C Company. Lieutenant Elliott's assignment led Chaplain H. Boyd Edwards to quote from St. Peter:

"He that is filthy, let him be filthy still."

The privates detailed to guard the equipment were men who had been guilty of buying pies from places at which the train stopped during the day. They are "overboten," as they are considered bad for the stomach.

The tradespeople of the city were not as courteous to the visitors from Massachusetts as Mayor Edwards and the Y. M. C. A. Mess Officer Lieutenant William McCade, who went about the city attempting to secure provisions for the mess, found prices to be so high that in man cases he indignantly refused to do any business. The only reasonable merchant encountered was a German, who said that he would not be mean enough to raise his prices to the soldiers who were giving their time and perhaps lives for their country.

Colonel Graves accompanied Mayor Edwards and his wife to the municipal baths in the mayoralty automobile and looked on for a time while the boys enjoyed themselves. Major Frank S. Elliott, battalion commander, had the men all back at the station ready to entrain at 10:30, but there was no train.

At 11:15 a Santa Fe train, made up of steel coaches, was furnished, but it was impossible to secure another Pullman car and the officers were forced to put up with the inadequate car in which they had ridden from Chicago. And against which Major Elliott protested.

CALL CARS A DISGRACE.

While waiting for the Santa Fe train some of the officers were informed by railroad men that it was a disgrace to send troops over the road in the cars which had brought them from Boston. They were old wooden coaches, and while the Santa Fe was apparently unable to provide sleepers it did furnish steel cars. The troops were entrained and ready to start, but it was not until more than an hour later that the train got under way.

After proceeding for a short time it again halted, and the prospects are that the outfit will not reach El Paso until Tuesday.

A number of troops went through Kansas City while the Eighth was there, including a part of the Massachusetts cavalry and a Vermont organization. The Massachusetts cavalry outfit did not leave until the day after the Eighth, but it is being rushed through, and it was understood that rush orders were given that there has been nothing but delay after delay.

The news was obtained at Kansas City that Carranza had refused President Wilson's offer of mediation in reply to his note, and that additional troops had been called for.

The men became even more impatient at the delay, and after the train had pulled out they sat talking of the situation on the border for some time, being unable to sleep because of excitement and heat.

MEN IN GOOD CONDITION.

Despite their long journey and cramped quarters all the men are in good condition. Present Corncobs to Bay State Troops

By R. J. MERRICK.

Sedalia, Mo., July 1.—Aboard Bay State Cavalry Troop Train—The Bay State troopers are all breaking in huge corncob pipes today, presented to them at Washington, Mo., by a delegation of citizens who came to the station to give the boys an ovation.

The morning was spent in setting up exercises and pistol drill, and then the men were set to grooming their horses to insure their being in as fit condition as possible on arriving at the border.

Since crossing the Mississippi we feel

By WILLARD H. DAVI

Pratt, Kan., July 1.—Aboard 5th Regiment Troop Train.—Colonel Lyman Rollins, chaplain of the regiment, but better known as "Fighting Parson," went without his spectacles rather than kill a fly. The commander of the regiment, who has always been aboard, however, saw what the parson got something in the coaches where the men had congregated and the flies were killed by the thousands.

The men didn't stop at taking off their coats while they were on the go, but even went so far as to roll up their sleeves. Each man had a swatter and there was no respecter of persons or rank whenever he saw a fly. Colonel Rollins experienced more or less trouble in his stateroom. He claims he killed there were more elusive than anywhere else, although he finally succeeded. The campaign proved successful and tonight the entire train is practically rid of flies.

Another feature of the day was the holding of military school sessions. Corporals, each surrounded by a squad, all equipped with imaginary books, held classes in the shade. The question of signal practice, infantry guard, general order number three and other ends were studied.

The men spent the rest of time, when they were not watching, in cleaning their rifles. From the time the train left Quincy, Ill., last night and crossed the Mississippi into Missouri, there hasn't been a stop in town but what has greeted them as they arrived.

Today was the warmest. The hottest weather reaching about ninety-two. The speed on the troop train was today ordered decreased owing to reports which have been reported from the single-line track of the Rock Island Road. They will be late in arrival in El Paso late tonight.

WILL ORPET CALLS ON WEATHER PROPHET FOR AID AT TRIAL

By DOROTHY DIX.

Waukegan, July 1.—Somewhere Kipling sings a song of misadventure and tells how "When the thing that couldn't, has occurred," we sird ourselves up and begin all over again.

This cheering ditty was doubtless running in the mind of State's Attorney Dady in the Orpet case while the defence spent hours in proving that certain things which have happened couldn't possibly have happened.

The first related to the weather in Lake Forest on the day on which Marian Lambert met her death. A learned meteorologist, who runs the weather in Chicago, carrying in his hands an imposing looking book of statistics, proved conclusively from his records that it did not snow on that particular day.

Unfortunately, however, for his testimony, it does not rain alike on the north side of the North Side and the hot belief of Chicago, and whatever it may have done in the city, there was a flurry or two of snow in Lake Forest.

FOOTSTEPS MARKED.

The particular interest in this meteorological phenomenon lies in the fact that the footsteps of William Orpet and Marian Lambert as they trod the Unbroken snow in Klein's woods were covered over with a thin coating of sleet-like snow that fell during the day and was thus for days set apart, "Marked by God's own hand," as Mr. Dady's dramatically puts it—from all the other footprints that were made by those who went out searching for the girl when she failed to come home that Wednesday night, and who flocked to the spot when the news of the tragedy became known.

Then the defence introduced witness after witness and photographs and diagrams and maps galore to show what a conspicuous spot the Three Oaks is, especially in Winter, when the trees are leafless. It was shown conclusively that anyone standing at the foot of the trees could be easily seen from Sheridan road and from the electric railroad cars. Therefore, the defence contended that it was incredible that Orpet would have selected such an open space in which to commit a cold-blooded and deliberate murder.

Doubtless this is true. Certainly the Three Oaks are easily visible both from the Sheridan road and the electric car line, and yet Marian Lambert was killed either by her own hand or by Orpet's at that particular spot, and no eye save Orpet's saw the deed done. And nobody saw the dark form lying there in the snow for a day and a night, although Sheridan road is a great highway and electric cars flash by every few minutes.

DEVELOP SUICIDE THEORY.

Today the defence began exploiting its theory that Marian Lambert committed suicide. It will paint her as a modern Ophelia, whom much love madness and whose mind became "like sweet bells jangled out of tune."

Alienists will testify that the fact that the girl giggled incessantly showed that she had a highly nervous and hysterical tendency, and it will be shown that she was born when her mother was almost a middle aged woman and that she was "different" as such children so often are.

Most young girls have a morbid fancy for talking of death, perhaps because they feel themselves so far away from the grim reaper that they can afford to coquette with him. Was Marian Lambert one of these idle dreamers, or did the other world really break onto her?

Certainly she seemed to have brooded over the idea of death and thought of it as the easiest way out of trouble, as numerous witnesses have been found to testify.

The first of these will be Dorothy Mason, the school mate who told Marian in the washroom in the Deerfield High School that William Orpet was engaged to Celestia Youker. Miss Mason says that Marian said nothing for a time, but stood looking out of the window, and presently, when a bent, decrepit and severely-stricken old woman hobbled by, Marian said:

"What has such a one as she to live for? I often think that there is nothing in life that makes it worth while."

MORBID IN LETTER.

And a young boy friend will produce in court a letter he received from Marian just before the tragedy in which she said, "I shall see you Monday, if I am alive then."

Josephine Davis has testified that Marian said to her that if it was true that William Orpet was going to marry Celestia Youker after all that had passed between her and him, she would kill herself.

And Dorothy Russell, a pretty little school girl chum who spent the night with Marian on her birthday on February 3, told of how the two lay awake and talked for hours after they went to bed, in school girl fashion and of how Marian had told her about her love for William Orpet and his secret visits to her, and how she had heard that he was engaged to Celestia Youker and of how Marian said at last: "If that is true I don't know what I shall do."

And this combined testimony as to the girl's insistent talk of death makes a strong case for the defence, especially when coupled as it will be with the medical testimony as to her state of health.

As interesting a psychological study as any these heroine in this strange young girl, the revelation of whose life and character has astounded every one who knew her. Outwardly she was the prettiest and simplest and sweetest of village maidens. She was always laughing and gay, the life of every party.

All Neutrals Urged to Pray August 1st 5 Minutes for Peace

Stockholm, July 1.

THE neutral conference for continuous mediation has decided to request all neutral nations in the world to hold peace demonstrations on August 1, the anniversary of the war.

The conference suggests public meetings, street parades, pageants and church services, but particularly urges a five-minute pause throughout the neutral world. This would mean a complete cessation of all activities at 11 o'clock in the morning of August 1.

Demonstrations are now being arranged in Scandinavia.

REPORT 250,000 CAPTURED BY RUSSIANS

By International News Service.

Petrograd, July 1 — More than a quarter of a million Teuton soldiers have been captured by the Russian army in its continued offensive, and officials of the War Office say that before there is a halt more than 400,000 will be taken. Up to Wednesday 212,000 prisoners had been reported to the general staff's headquarters, but since that time the Russians have advanced more than thirty miles in some directions, the rapidity of their movements preventing transmission of reports on the number of captives.

In some places entire regiments of Austrian troops completely surrounded by the Russian cavalry, have laid down their arms without offering any defence. Where the trapped forces resisted they were literally annihilated.

In view of the great number of prisoners taken Russian officials assert that the Austro-German losses, including killed and wounded cannot be less than 600,000 up to the present time.

BRITISH START BIG DRIVE TO END WAR

Continued from First Page.

carrying information to the Continent that might reach the German government.

"At the moment when Russia's mighty army is continuing its drive in the eastern theatre and Italy is pouring its men forward against the Austrians, England is opening its terrific rush.

"For this attack Great Britain has been preparing for two years. Every effort of the late Lord Kitchener was directed toward gaining success in the drives against the German lines. Lord Kitchener, as well as other leaders of the allies, believed that the outcome of the war would be decided in the western theatre.

FIRST ATTACK A SUCCESS.

"The first attack of the British army, made along a front of twenty miles north of the Somme River, appears to have been completely successful, Frederick Palmer, the noted American war correspondent now at British headquarters in France, states that the British captured the Germans' first line in their initial attack together with many prisoners.

"The offensive began early today. It came following a bombardment lasting only one hour and a half, but for more than a week previously the British guns had been pouring shells upon the Teuton trenches.

English and French Storm German Lines.

By FREDERICK PALMER.

International News Service Staff Correspondent.

BRITISH HEADQUARTERS IN FRANCE, via London, July 1.—At about half-past seven o'clock this morning a vigorous attack was launched by the British army. The front extends over about twenty miles north of the Somme.

The assault was preceded by a terrific bombardment lasting about an hour and a half. It is too early yet to give anything but the latest particulars, as the fighting is developing in intensity. The British have already occupied the German front line.

Many prisoners have already fallen into our hands and so far as can be ascertained our casualties have not been heavy.

FRENCH AID IN ATTACK.

The artillery bombardment of the last three days concentrated this morning in a fire unprecedented in fury and in number of guns in the region of Albert and the Somme. The French are co-operating in the South.

At 7:30 a. m. through clouds of smoke and dust which hung over the whole field as far as the eye could see, the infantry sprang from their trenches. After taking the first line of trenches, the advance continued.

British trench mortars, which fire thirty-five shots to the minute, played a great part in cutting wire and destroying trenches.

Large numbers of the prisoners taken said that the British curtain of fire had prevented their getting food for the last five days.

A British staff officer who witnessed the advance and the junction of the French and English said that the French went into the attack as if on parade.

In a raid by the Anzacs (troops of the Australian-New Zealand Army Corps) Thursday night upon the enemy's lines about eighty German soldiers, including two officers, were killed. Our casualties were very slight.

GERMANS IN TRENCH RAIDS.

The enemy ineffectively raided our trenches westward of the Lille road after a heavy bombardment.

On Wednesday night three raids by our troops in the neighborhood of Messines accounted for a number of the enemy. The King's Shropshire Light Infantry, after an expedition into the enemy's lines, took a dozen prisoners.

RIOTS IN GERMANY OVER LIEBKNECHT

Geneva, via Paris, July 1.—Swiss newspapers print sensational stories of riots in Berlin, Stuttgart, Leipsig, Essen and elsewhere in the German Empire. The riots arose from demonstrations of protest over the sentence of Dr. Karl Liebknecht for attempted treason.

The disturbance in the Potsdammer Plats in Berlin, which has already been reported, is described as a desperate struggle from sunset until midnight. The demonstration was only suppressed by large bodies of cavalry.

It is stated that intense anger has been manifested in other places. A crowd paraded shouting imprecations and revolutionary songs during a riot in Leipsig, which was accompanied by looting.

FRANK A. MUNSEY CONTROLS N. Y. SUN

New York, July 1.—Frank A. Munsey, owner of the New York Press, announces he has purchased the interest of William C. Reick in the Sun, both morning and evening editions, gaining control of both papers. Coincident with this transfer the Sun buys the Press from Mr. Munsey.

The price of the Sun is to be reduced to one cent in Greater New York and nearby communities—two cents elsewhere.

FINDS GIRL SLAVE TO BIG BLACK PIPE

Bar Harbor, Me., July 1.—An agent for the S. P. C. C. called to investigate alleged cruelty to a nine-year-old girl at Hancock, found the child addicted to smoking and cherished a big black pipe which would have put many a man out of business. Her stepfather, in an attempt to break the habit, had beaten the child without effect.

TERRIFIC FIGHT FOR VERDUN WORKS

By CHARLES F. BERTELLI,
Staff Correspondent of International News Service.

Paris, July 1.—Terrific fighting continued at Verdun during the night, the Germans extending their attacks from the east bank of the Meuse to the west bank. To the east of the river the Teutons recaptured the Thiaumont works, northeast of Verdun, according to the French official communique issued by the war office this afternoon, but this position has been completely wrecked and is now worthless from a military standpoint.

On the west bank the result of the fighting was wholly favorable to the French. The Germans made four very violent assaults, but all were repulsed. The Germans recaptured a work at Hill No. 304, but this success was only temporary, a counter attack by the French ejecting the enemy troops.

The text of the French official communique follows:

"On both banks of the Meuse the enemy launched last night repeated and violent attacks. On the left bank, in all the region east and west of Hill No. 304, the conflict was particularly violent.

FOUR GERMAN ATTACKS.

"The Germans made no less than four attacks in different sectors. The first attack, in which they employed liquid fire, was directed against our positions between Hill No. 304 and the Esnes-Haroourt road.

"It was repulsed in the evening with bloody losses for the enemy. The second attack, made with grenades west of the Esnes-Harcourt road, suffered the same fate. Last night a strong attack by the German infantry east of Hill No. 304 succeeded in taking from us a fortified work which had been recaptured by us yesterday, this including trench elements on the eastern slope of Hill No. 304.

"Our counter-attack, immediately launched, restored to us the entire work and the ground that had been lost. Finally, this morning we successfully repulsed a German attack which attempted to reach the Avocourt redoubt. We inflicted severe losses on the enemy.

RETAKE THIAUMONT.

"On the right bank conflicts which developed yesterday in the sector of Thiaumont continued with great violence. They were fought for the possession of the work of the same name. After a series of assaults preceded by furious bombardments the Germans succeeded again in penetrating the redoubt, which had been completely wrecked, and on the immediate edge of which we have established ourselves.

"There was marked activity by artillery in the rest of the three great regions, Fumin Wood, Chenois Wood and Laufe Wood."

WAR SUMMARY

Suddenly dropping the dash-and-sally style, the British launched a terrific attack against the Germans in France early today. The British War Office made official announcement later that the German defences had crumpled up over a sixteen-mile front.

First announcement of the sudden advance was cabled by Frederick Palmer, the International News Service correspondent, at the British headquarters in France. He said that the British had advanced along a twenty-mile front from the Somme northward.

Mr. Palmer added that the British had taken German first-line trenches and many prisoners and that the fighting was growing more and more terrific.

England has been holding the western front from the Somme up to Dixmude, West Flanders, about eighty miles, with the Belgians holding above Dixmude and the French from the Somme down by Verdun and to Switzerland. A twenty-mile attack by the British from the Somme would mean an advance from the Somme about to near Arras. Later cable said that the French from the Somme southward were co-operating with the British.

Fighting at Verdun is likewise ferocious. The night communique from Paris said that the French, at 10 a. m. yesterday, recaptured Fort Thiaumont, that the Germans retook it at 3 p. m., but that the French recaptured it for the second time by a counter-attack at 4:30. But the opening official from Paris today said that the Germans were again in possession of the Thiaumont work. The statement declared, however, that this fort had been shattered so that, from a military standpoint, it had become worthless. But, worthless or not, it has been the object of tremendous conflict.

The chief news from the eastern front was the announcement indicating the capture by the Russians of Kolomea, a railroad centre in southeastern Galicia, and marking continued advance for the Russians westward from Sniatyn. Petrograd said officially that panic-stricken Austrians were fleeing south of the Dneister and that latest dispatches from the front to the War Office showed that Obertyn, thirteen miles north of Kolomea, had been taken. Vienna admitted that Austrians evacuated the "sector southwest of Kolomea."

The advancing Italians now confront Austrian main positions.

Baltic steamers have brought into Stockholm unconfirmed reports of a sea battle between German and Russian squadrons off the Swedish Baltic coast last Thursday night, in which the Russians finally withdrew after German reinforcements arrived.

DEATH RELIEVES COULTHURST'S SUFFERING

John A. Coulthurst, city councilor, after a long siege of nephritis, died in the Robert B. Brigham Hospital.

He was prominent in politics and well liked in his district. In 1907 he accepted the indorsement of the Independence League as a candidate for Mayor of Boston, running third to James J. Storrow and John F. Fitzgerald at the election.

Figuring principally as chairman of the Citizens' Municipal League in connection with city affairs for several years, in 1912 he was elected to the City Council when the Municipal League-Good Government-Republican City Committee slate defeated the Democratic - Lomasney - Fitzgerald ticket in the fight for City Council and School Committee. Subsequently he was re-elected to the City Council with the indorsement of the Good Government Association.

Mr. Coulthurst was strong in his support of John B. Moran as a candidate for Governor of Massachusetts in 1916. Two years later he was a delegate-at-large to the national convention of the Independence League and supported Thomas L. Hisgen's nomination as Presidential candidate.

IRISH REBEL SAID TO BE AMERICAN

London, July 1.—Edward Davalera, professor at Dublin College, said to be an American citizen, was court-martialed and sentenced to death for participating in the Irish rebellion, but his sentenced was later commuted to penal servitude for life. He is now in prison in England. The American Embassy has taken the matter up with the Home Office to ascertain the prisoner's nationality.

DUMA BARS STRONG DRINK FROM RUSSIA

Petrograd, July 1.—The Duma has passed the bill permanently prohibiting the sale of drink containing more than 1½ per cent. of alcohol. The measure must be passed in the upper House and receive the Emperor's approval before becoming law.

The bill includes light wines and beer. Its final passage will make Russia forever a prohibition country.

PICK LLOYD GEORGE AS NEW WAR HEAD

London, July 1.—The Daily Chronicle fears that the details of the appointment of David Lloyd George as Minister of War have been settled and a perfect understanding exists between the new minister and the imperial general staff.

A new Minister of Munitions will be appointed.

FEDERAL TIRES

Preparedness—
The Order of the Day

Make your Fourth of July outing one of uninterrupted pleasure. Be prepared for any tire emergency enroute — in city, country, village or hamlet. Fortify your car against possible danger at all times—everywhere—by the best tire protection obtainable.

FEDERAL
Double-Cable-Base
"RUGGED TREAD" TIRES

give this protection in the greatest possible measure. The sturdy studded tread combined with four heavy steel cables in the base, make it the strongest, safest, most satisfactory tire for all-round motoring service.

Maxwell

ANNOUNCEMENT

ON July first, nineteen hundred and sixteen, we will establish a direct factory branch in Boston. The firm name and location will be

THE MAXWELL
MOTOR SALES CORPORATION
660 Beacon Street

This branch will carry a full line of Maxwell cars and will be equipped to give the most efficient service to Maxwell owners.

Present owners of Maxwell cars and others who are interested in automobiles are cordially invited to visit our new establishment.

MAXWELL MOTOR COMPANY, Inc.
DETROIT, MICH.

See Announcement of Maxwell New Price in the Sunday papers.

Women and Children Poisoned at Newport Picnic Out of Danger

Two of the children who suffered from ptomaine poisoning, Laura and Myra Close.

Newport, R. I., July 1.—All the women and children and the Rev. George Vernon Dickey, who were poisoned at the picnic of St. George's Church Sunday School at Lawton's Valley are now out of danger.

Miss Mary F. Dewick, seventy-one, who was the most seriously sick, is reported as improving. All the children at the Newport Hospital have been taken home.

Public opinion places the blame on the ham sandwiches, which were made up the night before and the ham chopped up while it was warm. It is believed that all the Sunday School picnics are at an end for the Summer.

The Newport Board of Health has samples of the food served at the picnic and is also interviewing the patients. Dr. Gardner T. Swarts, secretary of the State Board of Health, started an independent investigation.

CARMEN REJECT ELEVATED'S OFFER

Five thousand members of the Boston Street Carmen's Union, at a special meeting in Tremont Temple, have unanimously voted to reject the offer of the Boston Elevated Company, which would grant them a flat increase of one cent an hour for the first year, one-half a cent for the second and another cent for the third year, under a three-year contract.

The conference committee of the union was instructed to propose that arbitration be resorted to for the settling of the dispute.

This action was taken after the members of the union assisted the officers, in calming the radical members, who attempted to stampede the meeting and force through a vote giving the company twelve hours in which to grant the demands, on the penalty of a strike.

International Vice-President John H. Reardon of Worcester, assisted President Thomas G. Doyle, Past President Matthew J. Higgins, Business Agent Mathias J. Kendala and Past Business Agent Thomas F. Shinn, were the men who prevented the strike vote from going through.

Since April 5 last, the conference committee of the union has been in conference nearly every day with the representatives of the company.

The schedule of wages demanded by the union, under the new agreement, calls for 30 cents an hour for the first six months of service, 35 cents for the second six months and a wage of 40 cents thereafter.

JOHN HAYS HAMMOND MUCH IMPROVED

New York, July 1. — John Hays Hammond, who has been slightly ill at his apartments in the Belmont Hotel, said today he is much better. Mr. Hammond will leave for Gloucester, Mass., tomorrow to convalesce.

WANTED—NEW IDEAS

Write for List of Inventions Wanted, $1,000,000 in prizes offered for inventions. Send sketch for free opinion of patentability. Our four books sent free. VICTOR J. EVANS & CO., 844 Ninth, Washington, D. C.

These College Venuses Mean Rebellion

Says Harrison Fisher, the famous illustrator. He finds that the striving of the college girl for a Venus-like figure shows that the girls are declaring independence of distorted Fashions. American girl Venuses are pictured in tomorrow's Sunday American, with an article by Mr. Fisher, which includes his idea of how the original Mrs. Venus de Milo would dress today.

BOSTON ZIONISTS ON WAY TO CONVENTION

A delegation composed of some of Boston's most prominent Jews have left for Philadelphia to attend the nineteenth annual convention of the American Federation of Zionists and the Provisional Committee for General Zionist Affairs, which will meet in joint session, opening today and ending July 6.

DOCTOR IS HELD ON STORIES BY GIRLS

Dr. Ralph M. Foss, a Norwood dentist, pleaded guilty in the Dedham District Court to serious charges brought against him by three little girls and was held in $500 for sentence Monday.

SOUTH END GIRL IS HURT BY AUTO

Struck by the running board of an automobile in Columbus avenue, near Dartmouth street, Genevieve Ruddin, seven, of Burbank street, received a possible fracture of the skull. She is at the City Hospital.

SOCIETY

Mr. and Mrs. Robert Winsor were hosts today at their Weston estate at an outdoor fete which was given in honor of their son and daughter-in-law, Mr. and Mrs. Alexander Winsor (Hon. Bancroft), who were married at Beverly, June 1.

The bride is the second daughter of Mr. and Mrs. Robert Hale Bancroft, of Beacon street and Beverly, and she and Mr. Winsor have just returned from their honeymoon.

o o o

A wedding of large Boston interest today was that of Miss Helen McKee Munson, daughter of Mrs. and Mrs. Robert Hallam Munson of New York, and Richard Manning Russell of Cambridge, son of the late Governor William E. Russell. The event took place at York Harbor, Me. The ceremony was performed by the Rt. Rev. Wm. F. Davies, Bishop of Western Massachusetts.

The maid of honor was Miss Carol Harriman, daughter of Mr. E. Henry Harriman. The other attendants were Miss Margaret Russell of Hampstead, England, a sister of the bridegroom; Mrs. Gordon Auchincloss of Boston, Mrs. Amasa Mather of Cleveland and Mrs. Sumner McKnight of Minneapolis.

o o o

Another distant wedding taking place today and claiming the interest of many Boston and North Shore friends was that of Miss Edna Rich, daughter of Mr. and Mrs. John A. Rich of Santa Barbara, Calif., and Lewis Kennedy Morse of Melrose street. Mr. Morse is the son of Mrs. Lewis W. Morse. The wedding was solemnized in San Francisco.

o o o

Miss Mary F. Barnard of Worcester has leased the Wilbur de Ford Ingelow cottage at Cohasset and has gone there for the Summer.

o o o

Among those attending the Golden Club convention at Lenox were Dr. and Mrs. William M. Bullard and Miss Katharine Bullard. They have just become members of the club.

o o o

Mr. and Mrs. Edwin S. Webster will spend part of the Summer at Manchester, where they have taken Alexander S. Porter cottage on Union avenue.

REMEMBER!

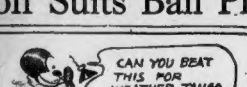
Come in and let us demonstrate it to you. It has an excellent tone.

Golf Suits Ball Players: They Can Use Any Kind of Language When Addressing the Ball



BOSTON AMERICAN SPORTS

Decisions Were Easy

O'Day's Work Satisfies

By JOHN W. MORAN, JR.

The white missle sped through the air and plunked into Hank Gowdy's big mitt with a resounding slap.

"Strike one," chirped Hank O'Day as he turned in the direction of the Braves' bench.

"How's that, George," he shouted toward the spot Boss Stallings occupied.

"All right, Blind Tommy," replied Stallings, "but wait till they get tough."

That shows just what Hank thought of Stallings' complaints over the umpiring of the past few days. The fact remains that regardless of his thoughts Hank worked pretty close to perfectly throughout the afternoon. Of course an umpire always looks better to the home team and fans when that team's in front.

HANK WORKED NICELY

They didn't get tough for Hank but throughout the entire game there were many tough spots for Mal Eason and if one cared to he might go and show Stallings a series of umpiracle breaks which came his way. George's offer only went for games in the past of course his fifty big iron men are still safe. If encounters that were to come after the offer was made are to be considered then the Miracle Man can dig down and hand over sundry fifties to those who claim them. Among others I'm disinclined in.

G. T. Stallings actually did offer his pound sterlicous to anyone who could point out to him one tough decision which Mal Eason gave in favor of the Braves. The players themselves stand back of the boss in the offer. They declare that possibly once or twice Mal may have been liberal to a slight degree but that in the main he don't see the locals as often as he might.

DOUBLE BILL TODAY

For just this paragraph all that's neither here nor there. Today the Braves and Robins hook up in a double bill the first half of which gets under way promptly at one and thirty. In the opener either Pat Ragan or Ed Reulbach seems slated to start. Whichever one draws the assignment will give way to the other when the second game gets under way. For the present the task of managing the Brooklyn club rests solely with Robins. Wilbert Robinson. One privilege a manager enjoys is that of seeing his pitchers and consequently no choice is made here. However, the fact remains that Jack Coombs, Larry Cheney and Rube Marquard are among the eligibles.

To revert once more to the subject of umpiring a few terse remarks by Manager Stallings are here given: "That man Eason never gave us a thing" continued the Miracle Man, "he's been on us for the four years I've been in the league. Yesterday he might have come our way a trifle once or twice but that's too good to last. When I offered $50 for proof that he ever gave us the best of it in a close decision I meant it and what I said still goes."

GOT HIS JOB BACK.

"As for O'Day I can only say that when he didn't have a job, early in the 1915 season the Boston club through President Gaffney put in a pretty strong touch to Governor Tener for him. I boosted him to Gaffney and soon after the pair of boosts he got his old job back. Today he can't see us. Just why I don't know. Our club is not going after umpires unless we get the worst of it.

"If things break right we'll give the umps better than an even break, but if they rule against us our club's going to holler some. We appreciate that umpires make mistakes once in a while but they can't make them continually. I started this season with the intention of being off the umpires. I want to play off them, but I want an even break for the team." And then Stallings reiterated his offer to $50 to anyone who can prove that Eason ever gave the Braves the better of it. But as we interpret his offer it didn't apply to yesterday. Instead it included only those games that were played prior to yesterday's encounter. This is another day and other umpires will be on hand to settle all arguments.

SIDELIGHTS

By JOHN W. MORAN, JR.

TWO games for the one admission today should pretty well crush the seats at Braves Field. Already a goodly demand for grandstand seats has been made. The first game starts at 1:30.

* * *

YESTERDAY'S gathering numbered close to 5,000, making the total attendance for the three games played fairly nifty.

* * *

JOHNNY EVERS announces that somewhere in transit from Philadelphia his trunk was forced open and from within two suits of clothes, as well as an overcoat, was extracted. Needless to state the King of Second Base is somewhat upset.

* * *

PETE COMPTON departed our midst last night bound South for Louisville. Bash, or Calibash, as some call him, won't stay down for very long, however. He can hit and field, too, and, if it weren't for one or two little things that are bothering him, he'd be going like a house afire just now.

* * *

MANAGER ROBINSON sent Mails into the fray in the eighth canto of yesterday's pastime. Fred Snodgrass greeted him with a ringing double to centre and immediately after Hank Gowdy smacked a one-shot to the same territory on which "Snow" counted.

* * *

JESSE BARNES looks to be about the best of the Stallings pitchers who have shown in the present series. The kid was in there with plenty of "stuff" and nerve yesterday and certainly turned some of the big Brooklyn hitters back in slam-bang fashion.

* * *

IT was recently announced that a postponed game with St. Louis would be played off as part of a double-header August 1. The Caledonian Society in Holyoke planned an excursion to Boston for July 31 and immediately made plans for attending a ball game. They guaranteed 2,000 persons and a double-header were played. Consequently, the double bill with St. Louis has been set back a day.

* * *

STENGEL'S double in the fourth became an extra base smash as a result of "Red" Smith's effort to stop it. The third baseman leaped into the air and managed to touch the ball, thus retarding its progress, but could not get it down nor could Magee field it before Stengel reached second.

* * *

OTTO MILLER got a lucky blow in the third when Snodgrass, Collins and Evers allowed his pop to drop between them in short right-centre. Either one of the three might have handled it had somebody shouted.

* * *

HANK GOWDY'S only time at bat when he failed to connect safely came in the fourth when he ducked a bad pitch, but did not get his bat out of the way. The ball glanced off his bat to Cutshaw, who had an easy assist on Hank.

HENNIGAN ENTERS RACE AT UXBRIDGE

George V. Brown, athletic manager of the B. A. A., announced today that Jimmy Hennigan, New England cross country champion, and unquestionably one of the best road race runners at distances up to fifteen miles, had entered the modified Marathon, in connection with the athletic carnival of St. Mary's Church, Uxbridge, July 15. In addition to the five-mile Marathon a number of other track events are scheduled.

Manager Brown announces that the program includes 100 and 220-yard dashes, 440 and 880-yard runs, mile run, running high jump and twelve-pound shot-put. Three prizes will be given in each event. Registered amateurs may forward their entries to either George V. Brown, at the B. A. A., or M. J. Baker, Uxbridge. Entries close Saturday, July 8. The fee is 25 cents for one event and 10 cents for each additional event.

"SHERLOCK HOLMES" AT THE TRENCHES

Sir Arthur Conan Doyle, creator of the master-sleuth, Sherlock Holmes, made a trip to the British front in France and Belgium. A vivid description of what Sir Arthur saw, in his forceful, graphic style, will appear in tomorrow's Sunday AMERICAN. Sir Arthur has written fighting novels, but now he has seen the real thing.

AGNEW IS NOT MAN BLAMED

President Lannin Says It Was McBride Who Started the Row.

Washington, July 1.—The sequel to the riotous scenes at the Red Sox-Washington game here yesterday will be staged in court today when Catcher Agnew of the Boston outfit appears to answer a charge of assault preferred against him by Clark Griffith, manager of the Senators.

President Lannin of the Red Sox, thoroughly aroused by the action of the Washington authorities in causing Agnew's arrest, was today prepared to take retaliatory steps the first moment Griffith showed any sign of pressing the charge against the Boston backstop.

If the complaint against the latter is pushed President Lannin stated he would immediately prefer charges of assault against both Griffith and George McBride, the Washington captain and shortstop, the player whose protest precipitated the entire trouble.

PLAYERS SWARM FIELD.

In a statement given to the AMERICAN President Lannin holds Griffith and McBride solely to blame for the riotous outbreak. He claims that Griffith first subjected Agnew to a stream of vile names and then followed these up by striking the Boston catcher. It was not until then, he claims, that Agnew hit back.

The trouble started while McBride was at bat in the third inning. Carl Mays, who was trying for the Sox, shot up a fast one which struck McBride as the latter was trying to dodge.

Thereupon McBride, it is said, deliberately hurled his bat toward Mays' head, claiming the latter had aired to "beam" him. McBride's act quickly set both teams in an uproar. From all sides the players of both teams raced toward the spot where McBride stood, still shouting accusative words at the Red Sox pitcher.

McBRIDE IS BANISHED.

Umpire Owens quickly forced his way through the crowd, however, and immediately banished McBride from the field. At this the Washington players became even more enraged and for a moment a free-for-all fight seemed imminent.

During the argument President Lannin claims Manager Griffith shoved his way in front of Catcher Agnew, who was defending Mays from a howling mob, and started using vile names. As a wind-up, Lannin says Griffith struck at Agnew, who then returned the blow.

AGNEW UNDER ARREST.

At this juncture a squad of policemen rushed upon the scene and at Clark's request placed Agnew under arrest. With drawn clubs the officers then battled their way through the hovering crowd of ball players and spectators to a patrol box just outside the field. From this Agnew, still clad in his uniform, was driven to the station house in a patrol wagon.

Within a few minutes after his arrival he was bailed out by Secretary Riley of the Red Sox.

Today action in the matter is also expected to be taken by President Ban Johnson. It is believed that fines will be imposed upon both Agnew and McBride, the central figures in the trouble.

The riot was caused by a settled belief in the minds of the Washington players, together with those of several other teams in the league, that the Boston pitchers are deliberating using the "bean ball." McBride did just what any other Washington batsman would have done, hurled his bat at Mays, the bonus bunch claims.

Maya denies any intention of trying to hit McBride. He points to his record in the league, and insists that "beaning" McBride was farthest from his mind. Just what report the umpires made to Ban Johnson is not known, but both Agnew and McBride are expected to draw suspensions, and Agnew will very likely be fined.

SOCCER SHOTS

It will be Ireland against Scotland today at Cooper street grounds, Lynn, when representatives of those races connected with the Boston and District League come together at 3:30 sharp.

* * *

This will be the regular annual event and as usual the Hibs team will be well represented with seven of its players in the lineup, therefore it would be little surprise to hear the bleachers shouting "Go it, Hibs."

* * *

The Scotch eleven will be represented by Lambie, G. Wilson and Law of General Electrics, Clawson and Bradford of Fore River, Jack Wilson and Meldrum of Clan Sutherland, A. Wilson and Todd of Charlestown and Ried and Rourke of Lynn Fosse.

The Irish eleven will have F. Daly, Grier, McLaren, Cahill, Friel, Ritchie and Cosgrove of Lynn Hibs, Kane and Spence of General Electrics, Hanson of Tribo and I. Spence of Lynn Thistles.

* * *

George Lambie, the popular local and acknowledged premiere referee of the country, with the assistance of Crompton and Diamond will have charge of the game. Therefore, the team that plays the better very likely will be returned the winner.

OUTSIDER WINS BIG EVENT

Sellers D. Annexes Feature on Hillsgrove Getaway Day Card —Andy Ashland in Front.

By GUS DALY.

Providence, July 1.—The final day's program at Hillsgrove had for its feature event the free-for-all pace and it served to attract a good-sized crowd to the "twice-around" course.

With It Will Tell scratched, B. M. was thought by many to be an almost sure winner, but after Fred W. nosed out Our Colonel in the opener, old Sellers D. annexed the three heats. The chief contention came from Aconite and Cheerful Charlie.

Andy Ashland, starting for the first time this season, showed the way to a fair field of pacers in the 2:18 class. In the first heat the horse "broke," and Frank Fox wisely gave him an easy mile. The following heats were vigorously contested by both Queen Hal and Reg Norton, but Andy Ashland had a superior brand of speed in reserve and it carried him to the wire in front.

Fourteen paced away in the 2:19 trot, which was annexed by Jess Y., a handsome bay mare driven by her owner, Earl Pitman of Trenton, N. J.

Box Office Count for Moran-Dillon Runs Only $28,521

NEW YORK, July 1.—Promoters of the Frank Moran-Jack Dillon fight at Washington Park, Brooklyn, Thursday night, lost in the neighborhood of $7,000.

The receipts were $28,521, from which about $2,000 was deducted for the State tax.

Moran, the loser, got $20,000 for his work and Dillon, the Winner, $10,000.

The incidental expenses were between $3,000 and $4,000. It originally had been announced Moran was to receive $35,000 and Dillon $15,000.

EASTERN NET PAIR RETAIN THEIR TITLE

Cleveland, July 1.—George M. Church, Tenafly, N. J., and Dean Mathey, Cranford, N. J., the former Princeton team, defeated Willis E. Davis and Harold Van Dyke Johns, San Francisco, 7—5, 6—0, 6—2, in the challenge round of the doubles event in the seventh annual national clay court tennis tournament on the courts of the Lakewood Tennis Club. Church and Mathey both starred in successfully defending their title.

LAST NIGHT IN THE RING.

Syracuse, N. Y., July 1.—"Battling" Levinsky clearly defeated Jim Barry, the veteran Chicago heavyweight, in their ten-round bout. Barry was badly outclassed.

Philadelphia, July 1.—Joe Borrell of Philadelphia outpointed "Sailor Jack" Beck in six rounds at the Cambria A. C. Beck substituted for Noah Brusso of Providence.

BIG FOUR IN TEAM GRIND

Wiley and Carman and Didier and Seres Hook Up in International Battle at Beach Oval.

TONIGHTS REVERE CARD.

Forty-mile international motor-paced team race—George Wiley and Clarence Carman, America, vs. Leon Didier and Georges Seres, France.

Amateur and professional events. Starting time—8:15 p. m.

An innovation will be introducted at the Revere Cycle Track tonight in the way of a forty-mile international motor-paced team race, in which two of the fastest pace followers in America will oppose a pair of France's fleetest flyers.

America will be represented by George Wiley and Clarence Carman, while France will pin its hopes on Leon Didier and Georges Seres.

Wiley, Carman, Didier and Seres have few, if any, superiors at the middle distance game and their struggle should be a keen one.

Amateur and professional open and handicap races will precede the main event.

Delmont Gains Draw

M'Rae Stops in Windup

By RINGSIDE.

Al Delmont, the veteran New England featherweight, one of the last of the old guard to escape the ignominy of being tossed into the discards, put up a surprisingly peppery finish, after getting off to a woefully bad start, in his twelve-round bout with Howard McRae, the youthful Cambridge gloveman, at the Commercial A. C. last night, and thereby gained a draw from Referee Jack Sheehan.

Delmont was badly whipped at the end of the sixth round; in fact, he appeared considerably outclassed. McRae was never in better trim, nor did Howard ever box better. He's added a snappy left hook to his ring repertoire since the last time he was in action and it fills out his stock admirably.

Delmont, too, was in good trim, but he was badly peppered by McRae's left and right at the start and seemed helpless when it came to doing any landing himself.

Along about the eighth round Delmont began getting to McRae. Truth it is, Al stiffened and outfought his younger adversary practically every inch of the way in the last four or five canton.

Delmont finally got his left going properly; got hep to McRae's defence. Sheehan ran the bout well and his verdict was good enough, though it's hard to see how McRae tossed it off, figuring the big lead he held for fully two-thirds of the route.

The entire card pleased. Johnny Moore of Jamaica Plain, a big fellow who is understood to have held the Pacific Coast amateur heavyweight title back in 1906, was a 10 to 1 shot at the end of the third round of his set-to with Jim McDonald, the massive Dorchester citizen.

Moore stripped well and started nicely enough, but he bumped into a savage right smack midway in the second round and went down for the count of ten. Johnny also took a flop in the third, going down this time from sheer exhaustion.

Moore's corner worked well with him and he came back strong enough to stop McDonald in the fifth. It was a whale of a scrap, with the third round just about the best ever fought by two big fellows in a Boston ring.

Pat Owens and Louis Leonard opened the show with a rattling good six-rounder, which ended in a draw. Next, "Red" Kelly should have whipped Young Alger, but didn't. These tots, too, went to a dead-heat.

A capacity house saw the bouts and made full amends for the several "lemons" the new club recently pulled. Terry Brooks, Eddie Mack's hard-hitting lightweight, and "Yank" O'Brien, another warm clouter, meet in the windup number on next week's card.

To the Smokers of the Following Brands of Cigarettes

DETTIES
MURAD HELMAR
MOGUL TURKISH TROPHIES
LUXURY LONDON LIFE

Manufactured by S. ANARGYROS

The rumored shortage of Turkish tobacco may affect other manufacturers, but causes us no concern whatever.

It is a well known fact that Turkish tobacco improves with age, and for years we have had, and now have in storage in the United States by far the largest supply of pure Turkish tobacco ever carried by any manufacturer.

So large is our supply of pure Turkish tobacco that we are now making the above standard brands out of the 1910 and 1911 crops, ageing our leaf from the subsequent crops for future use.

We maintain in the Orient our own organization, and are not dependent upon the haphazard supply from brokers and specalators.

Notwithstanding the difficulties of ocean traffic, we have continued shipments from the Orient, adding to our already enormous leaf stock more than a million of pounds in the past few months—the most recent cargo, amounting to about four hundred thousand pounds of the best Xanthi and Cavalla leaf, having arrived at the Port of New York on Thursday, June 22, 1916.

Each individual cigarette in every package of the above brands is guaranteed 100% Pure Turkish Tobacco.

B. A. A. Team Entered Big Day at Caledonian

The first annual picnic and field day of the Pere Marquette Council, Knights of Columbus, to be this afternoon at Caledonian Grove, West Roxbury, will usher in the first important meet of the club track and field athletics, and the racing is certain to result in duals of strength and speed, which promise exceptional contests.

Athletic Director Joseph McNamara of the North End Park, who is in charge of the events, has received the entry of some of the best athletes in New England, and this includes many of the college athletes who have resumed training after much-needed rest from the strenuous Spring dual and intercollegiate meets.

The Boston Athletic Association's team, for the first time this season, will show its full strength and Manager George V. Brown is confident that the wearers of the Unicorn will score the most points in the different events and win the trophy offered to the team making the largest total.

TEAM IS STRONG.

The Back Bay Club's athletes have been working out for weeks at Tech field under the direction of Athletic Coach Jack Ryder, and the veteran handler is satisfied that his charges will make a good showing for their first appearance. The team is much stronger in the track events than in the field events and representatives of the smaller clubs in and around Boston are expected to clean up in the field events.

Manager Brown has entered his best sprinters in the 100-yard dash, and plans to gather places with such sterling sprinters as Foley, Jones, Bill Meanix, Nelson, Morrisey and Tom Halpin. In the sprint Halpin goes under his distance, but is more than likely to cop a place as he is doing exceptionally well in the dashes this season.

WHALEN ON SCRATCH.

The B. A. A. entries in the 440-yard dash will be Halpin, Burrage, Donnelly, Taber and Burke, and as this distance is a favorite one with "Long Tom" Halpin he is likely to cop the place. In the half mile the Unicorn will be represented by Burke, Burrage, Bell, McGrath, Donnelley, Carver and Ryan. The mile runners representing the club will be Bell, McGrath, Ryan and O'Connell, and in the three-mile run there will be Grady and O'Neil.

Walter Whalen, the former Boston College High and Exeter high jumper, will be the scratch man in the high jump, representing the Back Bay Club, and will have for a jumping mate Arthur Roberts. In the broad jump the club will be represented by McLaughlin and Nordell.

Manager Brown of the B. A. A. has announced that the full athletic strength of the club will compete in the City of Boston games to be on Boston Common in the morning of July 4, and at Russell Field, Cambridge, in the afternoon. This excepts Bill Meanix and Cuby, who will both journey to Lewiston, Me., to compete in the July 4 games there, and will be featured as they are both Maine college men.

CRICKET NOTES

SUPPORTERS of the game will have but two games to watch around Greater Boston today, and results of these are down for decisions at Franklin Field, where the St. Georges-Standards game be transferred to Wood Island Park by agreement.

* * *

THAT the schedule should bring together on the same day so well balanced competitions is a strange coincidence, and the results may mean several upsets to the league leaders. That they will fight to retain the advantage is a foregone conclusion.

* * *

AT Beverly the champions, U. S. M. A. A., will have as their opponents the Everetts. With the exception of last Saturday's game, when the latter fell to the Caribbeans, they have made trouble for all comers, and the champions will have to play their hardest to trounce them.

* * *

THE U. S. M. A. A. Blues, after a disheartening start, have probably come to life again, and with memories of their 159 for 7 of a week ago will be out to repeat against Cantons on the latter's grounds. The Canton gentlemen, however, are going along nicely at present, and with ground advantage in their favor will make it interesting.

It took Rothe to check the Indians' losing streak.

* * *

The Tigers are skidding fast, while the White Sox are showing signs of life.

BIG TITLE WON BY EVANS

Chicago Amateur Duplicates Triumphs of Ouimet and Travers and Lands Open Championship.

Minneapolis, Minn., July 1.—Charles ("Chick") Evans, Jr., Edgewater Club, Chicago, four times Western amateur golf champion, and once winner of the Western open title, added to his laurels by winning the National championship title over the Minikahda course with a total score of 286 for the 72 holes of champion play.

Thus for the third time in four years premier honors have been carried from the annual tournament by an amateur, and this time by the best score since the formation of the organization in 1894.

The best previous score was 290, made by George Sargent at Englewood, N. J., in 1909, and by Walter Hagen at Midlothian Club, Chicago, in 1914, when Evans was runner-up with 291.

Evans won the title with a margin of two strokes, for Jack Hutchinson, a professional of Pittsburgh, Pa., by clipping one stroke from the course record of 69, set by Evans Thursday, turned in a card of 68 for the afternoon round, which gave him a total of 286.

J. M. Barnes, Philadelphia, professional, was third with 290. For the course is 72, and the course record was 70 until lowered a stroke by Evans. The distance of the course is 6,150 yards. The summary:

Evans card Friday:

Par out	4	5	3	5	4	3	4	4	—36
Out a. m.	4	4	3	4	5	3	4	4	—35
Out p. m.	4	4	3	7	3	4	3	3	—37
Par in	4	4	3	5	4	4	5	4	—36
In a. m.	3	4	5	5	4	4	3	5	—36
In p. m.	3	4	4	5	4	4	4	3	—35—71—107

Evans card Thursday:

Out a. m.	4	4	3	4	5	3	4	4	—35
In a. m.	4	4	6	4	5	4	5	4	—36—70
Out p. m.	3	5	2	5	4	4	4	3	—33
In p. m.	3	3	5	5	3	4	4	3	—32—65—135

Mike Brady of Boston had a great total of 207. Lewis Tellier of Boston, 209; Tom McNamara of Taylor, N. Y., 209, and Carl Agerson of Boston, 317.

TITLE FOR FAIRCHILD.

Providence, July 1.—Daniel Fairchild, Wannamoisett Country Club, won the State golf championship by defeating N. S. Campbell, Agawam Hunt, 6 and 5, over the 36-hole course of the combined Agawam Hunt-Metacomet Club links. Fairchild formerly held the title.

HEVAN WINNER ON MAT.

Hyman Hevan, of the Anderson Association, West End, disposed of Joe Sinder of the Harrison Association, South End, in their wrestling match in the Anderson Association Gymnasium. After a tight tussle Hevan threw his foe; time 15m.

Races Off Marblehead Fields Are Nicely Filled

Marblehead, July 1.—The Corinthian Yacht Club will hold an open regatta this afternoon and the results of the races will count for the North Shore championships and the Lipton Cup.

The weather predictions point to the races being sailed under the same favorable conditions as attended the Eastern Yacht Club regatta last Saturday.

The unexpected speed displayed by the Bernice and the Ellen last Saturday has been the cause of much worry to the other skippers.

Although the Ahmeek was the favorite it was evident to all before the race hardly got underway that the Adams' new sails were not right and there was scarcely a chance for the former Canadian boat outfooling her rival.

The Bernice and the Ellen fought it out over the entire eleven and a fraction miles, but the latter was unable to overtake George Lee's newcomer. The Sayonara II. displayed fine speed, but Captain West was unfortunate enough to run into a change of wind off Half Way Rock, which dropped him from first to third place. Although the wind last Saturday was ideal for the Nutmeg, Commodore Jones was unable to get better than fifth place.

The Vera III. and the Flight, of the Bar Harbor class, which had a fine tussle last week, will resume activities this afternoon. The Vera III. scored a win over Captain Santry's champion, Flight, last week, but only after a hard fight over the entire course and under weather conditions which were perfect for the Vera.

If there is a little more wind this afternoon than a week ago, the Flight should be the first boat to cross the finish line in the Bar Harbor event.

It is expected that the full quota of R boats will go to the starting point this afternoon.

CLEO O'DONNELL TO MANAGE LAWRENCE

Lawrence, July 1.—Jesse Burkett has been released as manager of the Lawrence Eastern League club by owner Joseph P. Sullivan, and Cleo O'Donnell of Everett has been engaged as the veteran's successor.

O'Donnell has been baseball and football coach of the Everett High School and has been engaged to coach the Purdue University football team next Fall. This is his first connection with professional baseball.

The Biography of a Sinner

Vera Persuades Her Brother Len to Come to Her Assistance

SYNOPSIS

Vera Sheldon learns to hate her father because he is so stern. At sixteen the new teacher in the high school tells her he loves her. Her brother Rex finds her in Professor Hazen's arms and warns her not to let her father know. Vera wins the history prize, and Mr. Sheldon is so pleased he allows her to go to the high school hop. After she returns from the dance Rex comes into her room and leaves by the window. He returns in trouble and slips into his own room. De Witt sees him and calls to Vera to ask who it is. She is indignant and sends him away, thinking only how she can help her brother. Her father sends Rex out of the house forever. Vera wonders all day how she can help him. She asks advice of her mother, but gets no satisfaction. In the afternoon De Witt calls.

By ANN LISLE.

Copyright, 1916, International News Service.

He hadn't seen Rex, and he assured me I was silly to worry and asked me to meet him at the boat landing at three. He said he couldn't talk to me very well in our house—he was always so afraid someone would run in and misunderstand.

He kept assuring me I was foolish to fret about Rex—that it was just a boy's prank and that father would get over it as soon as something else came along to attract his attention.

I looked at him with a queer feeling that he wasn't really there—that if I reached out and tried to touch him I would put my hand through a shadow. Even his quick good-bye kiss didn't seem real.

Rex did not come home to dinner. He didn't dare bring up the subject to father, but I kept trying to signal mother when he wasn't looking. She, however, smiled and shook her head.

By 3 o'clock I had made up my mind what I must do. Len's college term did not close for another fortnight. It was only an hour's trip by train to the university. I could catch the two forty-five, go up and see Len, talk it over and be back in time for supper. I had my gold double eagle—a history prize—and father need never know what I had done.

I was too proud to ask any of the boys and girls if they had seen Rex. I didn't mean that anyone should hear of the result of his escapade with Clara Stacey if I could help it. But I wasn't too proud to telephone Clara Stacey and ask her if she had seen Rex that day.

She said of course not, and why, and what did I mean by insulting her, and hung up the phone in a tantrum. Then I hurried down to the drug store to see if Rex could be dawdling around the corner there, and I ran to our boathouse and to the Public Library and all the places where I could possibly dream he might be.

A POSTPONED APPOINTMENT

But my search went unrewarded. So I clambered on the two forty-five just as it was pulling out. We were on our way to the university before I remembered my 3 o'clock engagement with De Witt. I had a sudden shock of wondering if he would be very angry, but I got over that as the greater wonder took possession of me: Would Len be able to help me find Rex?

It never occurred to me to wonder if I could find Len. I knew his habits; he would surely be in his own room studying or in the library cramming up for the final exams.

Well, I was right about that—Len was in his own room, and I was directed to his boarding house by the very first boy to whom I spoke.

"I'm Leonard Sheldon's sister," I explained at the door of his boarding house. "I have to see him at once—my mother's sick and I was afraid to telephone." The landlady to whom I offered my lying explanation smiled and ushered me up to Len's door. He didn't live on the campus—that would have been too expensive for a boy working his way through college.

There had never been much sympathy between Len and me. He was over six years older than I—and he seemed austere and cold like Father. We had never quarreled and made up again with elaborate vows of affection as Rex and I were always doing. We were on politely formal terms that admitted of no intimacy. But now I flung myself into Len's arms and sobbed out my story.

"Oh, Vera, you're hysterical—girls always are on any provocation. There was nothing very dreadful about what Rex did. Of course, no one but an emotional youngster like Rex would have taken a painted up goose to that dance; but I suppose as soon as people get over laughing at him they'll forget it."

LEN ISN'T ANXIOUS

"But it isn't what people think that matters, Len—or what they say either. It's Rex. Don't you see? Father's put him out and how's anybody to know what he'll do or where he'll go? How will he live?"

"Oh, he's a boy. He'll take care of himself. Boys are like cats, Vera, though the qualities of that animal are generally attributed to your sex. However, boys are like cats in one thing—they land on their feet! Rex will come home and give in to Father as everybody does."

"You don't, Len. You're working your way through college when you might have had an easy berth in the soap factory."

That was an attempt at finesse. It was my first timid venture at flattering a man and so getting him to respect me for my respectful perceptions of him. It succeeded.

"I didn't think you understood, Vera. Well, probably Rex will have to give in to Father in the end. Not every man is strong enough to fight his own way."

"Oh, Len, that's just it—don't you see? You've got some of father's strength—you will fight, but Rex isn't like that. He's half crazy now. He'll do something awful if we don't stand by. He may have done something awful already. Please come home with me on the five o'clock train. We'll be in plenty of time for supper and this evening you can try to find Rex."

Len studied me thoughtfully for a moment or two. "Where did you get the money to come up here, Sis?"

"It's my history prize. I won twenty dollars, you know."

"Well, then, father wouldn't know you came up to consult me if you went back without me. This is Thursday. I can come up tomorrow for the week-end, not missing any exams and father'll never be any the wiser as to your little trip. No use in your being punished for rushing in and fighting Rex's battles, is there, Vera?"

I had always feared my father—feared and dreaded his wrath, his subtle sarcasm, his heavy handed readiness to punish and his sternness in judging. But suddenly I knew I loved Rex more than I feared father. I stared at Len a moment. His sleek brown hair and shining blue eyes seemed to belong to a stranger.

LEN COMES BACK

"I'm not afraid, Len," I said. "And if you're not I think you might as well come home with me to-night."

"Well, I haven't any exams Friday. If you're willing to take what you get from the old man I'll sling some traps into a bag and come with you."

To Be Continued Monday.

Does the soldier have supernatural senses, not possessed in times of peace? An eminent psychologist suggests in tomorrow's Boston Sunday AMERICAN that war may rend the veil between us and the unseen world.

Engaged!

"Honors Are Not Without Responsibilities"

By NELL BRINKLEY

Copyright, 1916, by International News Service.

WHEN you at last push open a garden-gate between whose bars you have peered for many an entranced hour, you cannot turn and flee at the first adventure! For idle hours you have leaned and looked at the mysteries framed between the iron scrolls, bits of blue sky with creamy masses of cloud floating over—a bluer sky than that that bends over you out in the dusty road, watched the faery-tops of trees wave golden and green, breathed in strange scents that are sweet and stupefying, followed the little twisting paths that journey away from the gate into flowery regions, with eyes that explored and were baffled at the first turn where the path looks over-shoulder and beckons on, saw the remote playing of rainbow drops leaping high in the sun, a jet of gems, and fancied the gold and silver fish that glanced in the sun in a pool beneath; heard faint music from over the armies of lily-bed lances, and at last you shake the gate 'til it rings in the still air. The garden enclosed—it is not your garden—but there is no pad-lock! If one was brave enough one could open it and go into this world of still sunshine and guarded ground. And when, at last, you swing it back and slip within with your heart behind your teeth and your feet on the path that travels always just ahead and nods and beckons "adventure" at every bend, you cannot turn coward at the first dim glade and the first wight who steps into the path in his little red coat.

When a girl nods with stolen star-shine in her eyes and says, "I love you, too!" and you give her her little ring and announce solemnly, "Now we're engaged!"—once inside the garden at whose gate you have hungered, and on enchanted ground, you must take the frights and the wights that come with the quest!

You may even have to go bonnet-shopping! And, though you truly feel like crying, "Little woman of my heart, your face looks good to me in any, so it is not red and yellow!" that offering will never save you if you fall asleep. Crowns have rough edges sometimes—even the ruby whose glow he delights in torments the king's head where it presses; roses have thorns that nip, and if you aspire to the garden of a maid's heart you will have to know that queer adventures will hop out at you from any kink in that labyrinth. Even fishing one bonnet from city-full, along with an untiring sweetheart, will be a request tucked away behind her kiss!

—NELL BRINKLEY.

Advice to the Lovelorn

By BEATRICE FAIRFAX

GO TO WORK AGAIN.

DEAR MISS FAIRFAX:

I came to this country when I was sixteen. I commenced to work for $1.50 a week and board. I saved my money and bought a business which cost me $950. In less than three years I had a bank account of over $4,000. I became engaged to a young lady. I sold my business and invested the money in a different line. I was unsuccessful and lost everything. When the girl heard of my failure she snubbed me. What would you advise? L. B.

SOME day you will know that the money loss which saved you from having a wife who married you for mercenary reasons was a great good fortune, though it came in disguise. Put this girl out of your head and devote yourself to retrieving your fortunes. You will find forgetfulness in renewed work, and when you have made a success again you will have every reason to feel proud and happy.

WAIT FOR AN INVITATION

DEAR MISS FAIRFAX:

I have been corresponding with a gentleman for five months. He has asked me recently to call and see him at his home. Now, I asked him to have his mother write me a few words of welcome and then I no doubt I would go.

Do you think that I will lower myself in his eyes by going to see him, as he has visited me only once since I met him? I know he has all good intentions. Then, again, if his mother fails to write me do you think it would be right for me to go to see him?

CLARA W.

YOUR stand was quite the correct one. Do not visit this young man unless his mother invites you.

THE BENEFIT OF THE DOUBT

DEAR MISS FAIRFAX:

I have been receiving attentions from a young man for three years and dearly love him. I also know my love is returned. While out walking I met him with a young lady. He spoke to me but acted in a great hurry to get away. He has called on me since, but said no word about what occurred. Do you think I had better speak to him about it, or what would you advise me to do?

TROUBLED.

IF you are a fine, broad-minded girl you will just dismiss this matter from your mind and believe that the man you love would explain the situation to you if it were possible. If you can do that all will be well. But if you are going to suffer from continual doubts and fears you had better ask him to clear up the situation.

Would Bite It

In a certain hospital "somewhere in France" one of the nurses, before going out shopping, was inquiring of the wounded soldiers whether they required anything brought in, and, if so, what, when one poor chap asked her to bring him a bottle of "Scotch."

She told him that was impossible, as he had been forbidden to drink anything. Whereupon he promptly replied:

"Well, have it frozen and I'll bite it."

Good Housekeeping Recipes

Good food properly cooked goes far toward insuring health and long years. As much depends on the cooking, however, as on the food itself. The following recipes have been tested and approved by Good Housekeeping Institute, conducted by GOOD HOUSEKEEPING, and are republished here by special arrangement with that publication, the Nation's Greatest Home Magazine.

All measurements are level, standard half-pint measuring cups, tablespoons, and teaspoons being used. Sisters, leave tablespoonfuls equal a half-pint. Quantities are sufficient for six people unless otherwise stated. Flour is sifted once before measuring.

Roquefort Cheese Mixture

One piece of Roquefort cheese, two inches square. An equal quantity of butter.

Cream together these two ingredients with a broad-bladed silver knife until well mixed and wholly without grain. Use to stuff celery stalks, or make into small balls to serve with lettuce or any vegetable salad. In this case dust the balls with paprika and roll in grated American cheese. Or use the plain Roquefort mixture in combination with a few chopped black walnut meats and a little cayenne pepper as a sandwich filling. To vary this occasionally add a few chopped ripe olives. This may be spread between crackers, whole wheat or white bread. Or if a canape is desired, spread the nut mixture (without olives) on thin pieces of toast, and serve with celery, stuffed olives or pickled onions or small sour pickles.

Bacon and Eggs, New Style

Eight slices bacon, diced, six small slices dry bread, diced, four eggs, one-fourth cupful milk, one-eighth teaspoonful pepper, a little salt.

Fry the bacon until brown; add the bread, and toss with the bacon and fat until well seasoned and slightly browned, then add the eggs beaten with the seasoning and milk, and scramble as usual. This is a very good way to use up dry bread.

How Discovered

"Marmaduke, do you know how ice was first discovered?"

"How?"

"By smelt it!"

Girl Workers Who Win

The Factory Girl Who Sang Her Way Into a Vacation

By JANE M'LEAN.

The factory was a grim, smoke stained place with windows that looked out on a narrow, dirty street. There was a constant buzz of machinery whirring and clashing, and the new girls always found that hardest of all to get used to. The work itself wasn't hard.

It meant simply the turning of a lever, the pulling of a handle, minute after minute, hour after hour, day after day, week after week, until the thing became a habit and the habit a monotony almost impossible to face with a brave heart.

When Bertha came to work in the factory she was given her own special piece of work to do. If Bertha had had an education she would have realized that the feeling she had at the beginning of her day's work was akin to hopelessness, but she did not stop to think about it and so she accepted her lot far more philosophically than many of those do who have easy tasks and hours of light and sunshine.

She arrived at the factory at 8 o'clock. She worked six days in the week and received five dollars a week for her labor. She was the daughter of a widow who had two other children to support, and from the time when she had first walked she had dreamed of the day when she could bring home her own money to her mother.

All day long Bertha sat near a dingy window with a dirty brick wall for her outlook and did the work required of her. She developed slowly into a regular little machine herself and her work became proportionately easy. No one cared whether the work was made interesting, no one cared whether Bertha liked doing it or not. As long as she did her part toward the great whole she was left in peace and her thoughts were her own to do as she liked with.

HAPPY WITHIN HERSELF

Bertha had a singularly happy outlook on life. The first week of her job in the factory the noise bewildered her. Night after night she would lie awake under her mosaic covering and try to stop the buzzing in her ears. But gradually the buzzing and the constant racket became a habit and she was able to hear above the uproar and even laugh a little at the bewilderment of the new girls who came to work at a machine near her. Her face was nearly always happy, and above the clamor and the noise of the big engines, she would sing merrily at her work. The other girls used to make fun of her for being happy.

"What are you singing for," Maggie Flynn would ask bitterly. "Do you think you have much to look forward to? Forget it, you'll soon be like the rest of us."

But Bertha would laugh and sing, and just because she sang, she forgot the ugly task that her busy hands performed so capably, and her thoughts were of the better things—green meadows, and birds, and milking the cows at evening. She had heard of such things, but she never believed that she would really see a cow.

One day the manager walked down the grim room with a sweet faced woman at his side. Bertha was busy singing away, her round, stolid little face turned toward the ray of light that the window threw across her work.

She was too absorbed with her own thoughts to look at the lady, but her hands mechanically kept up their busy routine and her shrill little voice sang out the crude melody of a song that she had heard on the street. Suddenly she was conscious of the fact that some one was speaking to her, some one was saying above the noise and the clamor:

"Do you sing at your work like this every day? Today it is raining, and you are singing about the sun."

Bertha grinned. "Sure," she responded, not at all shyly. "It sort of shuts out the noise.

A PROMISE

The manager scowled under his heavy eyebrows, but the woman spoke again.

"Are you happy at your work?"

"Sure, I'm happy. I don't think about my work; I'm too busy."

The manager passed on, and the lady, interested, questioned Bertha again. The story came out, all the dreams about the country, the pigs and the chickens and milking the cows.

"Do you think you'd like the country?"

"Do I think I'd like it?" And Bertha regarded the stranger superciliously. "Say, are you kidding me?"

Again the woman smiled. "I'm going to send you away for two weeks, child, where you can see all the green grass you want to and where there will be a brook to wade in." And then Bertha's face did change, from doubt to awe. "Saturday I'll come for you," the woman went on. "I'll speak to the manager; it will be all right." And with a smile, she passed down the long room.

Bertha looked around at the other girls dazedly.

"That's what you get for singing!" said Maggie Flynn. "Gee, you're the lucky kid!"

(The next article in this series will be called "The Usher.")

Household Suggestions

For waterproofing boots and shoes, equal quantities of white wax, olive oil and rectified lard, melted down, make an excellent mixture, but a little oil of turpentine should also be added.

* * *

If you want to keep the steel of your gas stove bright with very little trouble, rub it over with an oiled rag every time you use the oven and while the stove is still hot.

* * *

If new enamel pans are placed in a pan of water and allowed to come to the boil and then cool, they will be found to last much longer without burning or cracking.

* * *

Always rinse black stockings in blue water, and they will keep a good color right on to the end.

* * *

Before cleaning knives on a knife-board, damp them slightly. They clean more quickly and gain a better polish.

* * *

When brooms begin to wear, cut the bristles level again, and the brush will do its work as well as ever.

ANSWER TO-MORROW

STOCKS AND INVESTMENTS

By W. H. ROSS, Financial Editor

Stocks were weak in New York at the close, declines ranging from fractions to several points. Volume of business was small. Declines at the end included Alaska Gold 1¼, Anaconda ¼, Inspiration ¼, Tennessee Copper ¼, American Zinc ⅛, Butte & Superior ¼, Central Leather ⅝, United Fruit ½, Chandler 2½, Maxwell 1½, Studebaker 2⅜, Willys-Overland 1, American Smelting 1¼, American Can ¾, Car and Foundry 1⅛, American Loco. ¾, Baldwin 2, Colorado Fuel ¾, Crucible 1⅜, Mackin common ½, preferred ¾, Distillers ⅝, Goodrich ¾, Mexican Petroleum 1¼, Texas Co. ¾, Republic Steel ⅛, U. S. Steel ⅜, Industrial Alcohol 2⅜, Westinghouse ¾, Lehigh Valley ¼, New York Central ¾, Northern Pacific ., Reading 1, Southern Pacific ¾, Rock Island ¼ and Union Pacific ¾.

Among gains were Canadian Pacific 1¾, Baltimore & Ohio ¼, N. Y. Central ⅛, Great Northern ¼, and Kennecott ¼.

Transactions for the day totalled 175,200 shares. Bonds totalled $14,411,000.

As in New York attendance at the Stock Exchange and commission houses in Boston was light. Prices ruled lower here as the close of a dull session. Alaska Gold was a weak issue. Atlantic Gulf & West Indies common was the most active.

Closing declines included Alaska Gold 1¼, American Zinc 1, Butte & Superior ¾, Allouez ¾, Calumet & Arizona ¾, Copper Range ½, Wolverine ¾, New Haven ¼, Boston & Maine ¼, and Boston Elevated ¾.

Among gains were Gulf preferred ¼, Mohawk ¼, St. Mary 1, U. S. Smelting ¼ and United Shoe ¼; Quincy, North Butte, Woolen preferred and Gulf common were unchanged.

Trading on the Boston Curb was quiet and without unusual features.

Prices were on a lower level at the opening today than at the close yesterday, but changes were not large on the average. A few issues receded substantially at the start. Baldwin declined 1 points, Crucible 1½, Industrial Alcohol 1⅜ and Studebaker 1⅛. Texas Co. opened with 1½ gain. War order issues were weakest as a class and railroads the strongest. The market was dull, indeed, to look for assistance until the question of peace or war with Mexico is decided, or some other powerful factor that would enable them to leave town until after the Fourth of July. The market was dull and weak all the morning. The rally near the end of the first hour was unconvincing.

At the start Boston market was the firmest of the two, but inert. Gulf common was the most active issue. Neither market had any feature of much interest.

FINANCIAL NEWS IN BRIEF.

Baltimore & Ohio's net income for the fiscal year ended with June, increased $2,712,505, according to the estimate. After the preferred dividend is paid there will be $11,081,226, applicable to the $152,000,000 common stock outstanding, equal to 7.29 per cent. on the common stock there remains $3,483,922 to be carried to surplus.

For May Illinois Central reports an increase of $468,176 in net revenue. Net earnings for the year exceed $3,263,795.

New Haven is expected to report for May about $2,171,000 net after taxes. It now has about $6,500,000 cash. Preliminary returns indicate $580,000 surplus after all charges, compared with $235,000 surplus in May, 1915, and with deficits of $189,000 and $356,000 in the corresponding months of 1914 and 1913, respectively.

The North Butte report for increases for the year ended June 1 shows net profits of $1,220,338, or $2.36 per share on 450,000 shares.

PROCTOR SUIT LAID TO WIFE'S LOVE OF ART

That the marital troubles which led up to the Divorce suit George W. Proctor, the musical protege of Mrs. John L. Gardner, has just filed against his wife were caused by the latter's refusal to join him in his outdoor activities was the hint advanced today in local musical and social circles.

While Proctor has spend much of his time yachting, playing golf and tennis, his wife, it is said, preferred to devote her time to music.

The filing of the divorce papers came as a surprise to a large number which was nurtured by their mutual love of music.

Proctor, who was thirty-six at the time, was teaching music in the New England Conservatory of Music. His wife, who was studying there, was the librarian.

They were brought together by their duties, attended the opera and musical recitals together and were married a short time after they first met.

Mrs. Proctor was formerly Miss Marcuerite L. Burtt of Glens Falls, N. Y.

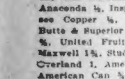
Sunday Church Services

Church News



A LIST OF CHURCHES THAT EXTEND A HAND OF FELLOWSHIP TO YOU

A number of New York and Boston ministers will take part in the Biblical play "Isaiah," to be presented on Star Island, Isle of Shoals, during the Summer. The Rev. John Haynes Homes, pastor of the Church of the Messiah, will impersonate Isaiah.

• • •

Citizenship day will be observed in the Boston churches tomorrow. Pastors have been asked to preach on the duties and responsibilities of every citizen, to keep politics clean and pure.

• • •

How Shall a Man Pay Off the Mortgage on His Body?

THE following is a letter from an employe of the Boston Elevated Railway Company. It is full of human interest.

Boston, June 14, 1916.

Editor BOSTON AMERICAN:

Dear Sir—I have read your editorial of the 13th and, as usual, found it to be very good. You write that the man who has no money saved up is not able to make himself part owner of the right thing when the right thing comes along. I have found this to be very true. You write that the man who must have this week's wages to pay this week's board bill cannot allow himself even a few weeks to investigate another proposition. I have found this to be very true also. You also write that if you are working today for what you will spend on Saturday you are owned by the man who has bought your time this week and who has a mortgage on you for next week. You are right. Not only mortgage for next week, but for a long time to come, if not always.

But what is a man going to do situated as I am? I am married and have four children. I am employed as a brakeman for the Boston Elevated Railway. My pay for one day of nine hours is 82.22¾. My pay for one week of seven days is $15.59. I work seven days a week. I haven't had a vacation in eight years. I put away $5.50 every week for rent, gas and fuel. My milk bill is $1.00 a week. I give my wife the rest for the table and children's clothes. That is my condition, and if you can show where I can save anything out of my salary (to pay off the mortgage on my body) I would be very grateful to you.

Allow me, if you please, to suggest that you write an editorial to all large corporations putting forth reasons as to why they should see to it that their employes are paid enough so that they can live up to the standard of which you write, and so that they can bring their children up to be good Americans.

Hoping that I have not taken up too much of your valuable time, I remain,

AN EMPLOYE OF THE BOSTON ELEVATED RAILWAY CO.

P. S.—The employes of the Boston Elevated Railway Company are at present trying to get a raise of pay. Perhaps an editorial at this time may help them.

The day laborer for the city of Boston receives 34 cents AN HOUR for his work, while the author of this letter, a brakeman, we assume on one of the elevated trains, receives BUT 24 cents AN HOUR. Thus the city employe for unskilled labor receives almost half again as much an hour as the semi-skilled employe of the Boston Elevated.

The Boston Elevated is a public service corporation. It is doing public work as important as the work in the street department; the only difference is that the public is the employer of the city employes and a group of incorporated private individuals is the employer of the brakeman who receives so much less than his fellow-workman in this branch of the public service.

It must never be forgotten that these public service corporations are performing public functions which have been delegated to them by the government. They have been given, in order to transact their business, a part of the State's very sovereignty, the so-called power of the eminent domain. They are also protected from the competition which private business is obliged to risk, just as if they were the government itself. There is no good reason under such circumstances for distinguishing between the wages of the employes of the public service companies and the employes of the city and State.

The governments of the cities and States have tried to set the example of good wages and good hours to private employers. The same example ought to be set by the public service corporations, for there is no sound distinction between the service performed by these public service companies and that performed by the government itself in laying out the streets and sewers, the maintenance of fire and street departments and even the public schools. Wages and salaries ought to be about the same where the level of skill is the same in the different branches of public service.

Some day, when people wake up and resume their own functions by acquiring the railroads, street railways, telephone and telegraph, gas, electric light and water power companies, and then do for themselves what they never should have delegated to private individuals to do, conditions in this country will improve in many more respects than the wages of the employes of the public service companies. The public does not object and never will object to giving a man who performs a public service a living wage and living hours of labor.

In the meantime, there is nothing to prevent the employes of the Elevated or of any other public service corporation from insisting on conditions of labor like those which their fellow workmen enjoy in the other branches of the public service, owned and managed directly by the public.

Once-Overs

Take a ride out into the country today, or look at the vacant lot near you. Did you ever see so many weeds?

This has been an ideal season for weeds, the farmer will tell you. They grow faster any time than the grain, but this year, with its much rain in most places and the difficulty with which one is able to get out doors to hoe them out or put them down, they are threatening to choke everything which is any good.

But what of the man who deliberately sows tares in place of wheat?

You say, "Oh, well, he must sow his wild oats."

"Wild oats"—they have no place on the good ground that your father and your mother sacrificed themselves to prepare. They are a dangerous crop to reap.

If you cannot sow good deeds, at least keep down the weeds.

THE THREE GRACES

By NELL BRINKLEY

Suffrage, Preparedness and Americanism

Any man who loves and reveres his mother and his country should idolize, if he worship at all, these three graces, Suffrage, Preparedness and AMERICANISM.—*NELL BRINKLEY.*

More Truth Than Poetry

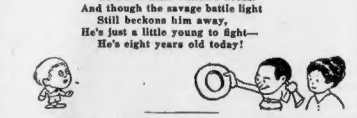
By James J. Montague

Left Behind

HIS wistful eyes are dim with tears,
His heart is lead today,
For forth amid the shouts and cheers
The soldiers marched away.
They're off to great Adventure's shore
The true romance to find,
They're answering the call of war
And leaving him behind.

AH! Why must he stand idly there
All hope of glory gone,
A sorry figure of despair
While they go marching on?
Why must the cruel hand of chance
Stretch forth, so stern and grim?
Why must the country of romance
Deny its door to him?

BUT every hero may not share
The great and splendid deeds
Of those who nobly do and dare
To serve their nation's needs.
And though the savage battle light
Still beckons him away,
He's just a little young to fight—
He's eight years old today!



What's the Use?

This is a whiskers year in politics. Yet Secretary Redfield, with two sets of them, wasn't even mentioned for a Vice-Presidential nomination!

It Can Be Done Again

Washington won the revolution in spite of a hostile Congress, and it looks as if the man who licks Mexico will have to do the same thing.

Endow Your Boy

By C. F. Thwing

President Western Reserve University

FIFTY years ago people in England sometimes spoke of John Bright as an institution. An institution represents permanence and usefulness. It is supposed to have dignity and is certainly inspired by a high purpose. We speak of endowing institutions. We may, therefore, speak of endowing a man, that is, assuring to him an income which shall serve to give support to him while carrying forward some useful work.

A friend of mine has thus endowed his son. The father is a rich man. The son is a scholar and a scientist. The father said to him: "James, you like your laboratory. Through it you can make some good contribution to human affairs. If you will live the life of a scholar, if you will use your laboratory as a workshop, I will give to Blank Trust Company $200,000 in trust for you and your (to be) family, the income to be paid to you and your wife during your lives.

At once James accepted. He is now pursuing his researches. These researches represent an enlargement of man's knowledge of certain forces of nature and an enriching of man's power of thinking. The resulting discoveries will ultimately serve as a useful purpose in making life better for tens of thousands.

What has my friend done? He has saved his son unto a life peculiarly useful and happy. He has converted his money into a most productive asset. He has gratified his own paternal instinct. He has made his son happy as well as useful. He has given to humanity a beneficence worth many times the amount of the pecuniary endowment.

The contrast between such an endowment of a noble son and the endowment of mere money, either through gift or bequest, which some children receive is deep and wide. The results of this endowment are beneficent; the results which spring up from useless legacies to many rich man's sons are almost always evil.

It is good to endow the college, the school, the library, the hospital. It ought to become good to endow the man, the son, the friend, the wise worker for humanity.

In-Shoots

In nine cases out of ten it is better to keep that honest opinion to yourself.

The devil always finds the volunteer church choir a pretty good recruiting ground.

It takes a very pious man to pass a dog fight on the street without displaying interest.

What some men lack in the way of brains they can make up in howl.

The wise girl will use tasteless paint on her face on the evening he is to call.

Marriage is a success so long as he takes pride in wheeling the baby's gocart on the street.

Really, It's Almost Like Being with the Soldier Boys

So Much News of the Bay State Troop Trains Speeding Toward the Border, and That News Told so Well That it Brings You Face to Face with Your Loved Ones in the Militia—Truly a Joy for Mother, Wife, Sister, Sweetheart.

Attention, company, halt!

Think back at the happenings of the past week—what a rush of events, and how closely did they concern each and every one of you!

Those tears and cheers of parting, and the godspeeds as the long trains of precious lads in khaki pulled out of Framingham, and the tugging at your heart-strings—and then the long hours of waiting and finally the hastily scrawled lines he dropped en route as the train sped on—what a world of excitement for so short a time!

Cheer up, for now come the news in detail—what he is doing, how he feels, what he eats, how he sleeps, how he kills time in the patience-trying day coaches, what a noble spirit is his—it is all here.

It is just what you have been waiting for, all the news about those Massachusetts soldier boys in khaki. From the long, thin trail of their trains west to Chicago and south toward El Paso, the Sunday AMERICAN has garnered all the facts, all the gossip, all the sidelights, in brief, all the detail which will bring your boy face to face with you in spirit tomorrow.

But this, though important, is not all—it is just the beginning. The "rookies" and militia units still at Camp Whitney have their interest in the news; it is a very wide and deep interest. When will THEY go? What are they doing? Have they enough to eat? Have they tents and blankets?

Are they hardening into fitness for border service?

How have they been spending the recent warm days?

You know you are vitally interested. Their doings and progress, what they lack, what they wish, all these things are covered by stories from the pens of special writers of the Sunday AMERICAN who are on the campground.

All the big news of the militia will be portrayed in the camera's eye; there will be an abundance of photographs. Pictures and stories will supplement one another, but each will be supreme in their field.

There will be all the official news of the Mexican situation, and correspondents on the scene will tell of happenings on the real front. Both at Washington and on the frontier, also at Mexico City, the International News Service will cover the situation in all its phases.

Let us here call attention to a page feature—"Why we ought to raise bigger Venus crops." Female beauties of real life are pictured here in comparison with the mythical Venus, and the photographs tell the story of their human loveliness that seems perfection.

Of profound New England interest is a double-page feature, "Living Just as Adam and Eve Did in the Garden of Eden."

This is the story of how a Maine couple—Mr. and Mrs. Walter F. Estes—lived exactly as Adam and Eve must have lived.

The pictures vividly depict the couple in their back-to-nature struggle in a modern wilderness of a Maine forest.

Not forgetting to serve notice in a line that tomorrow comes the free AMERICAN Sunday Monthly Magazine, with a treasure of superb articles and stories under a handsome Harrison Fisher cover.

Among the numerous other features not chronicled above and which the Sunday AMERICAN will have tomorrow is an interesting parallel between two Irish political trials, made by the sidelights of recent Irish history as they were thrown from the shadows during the trial of Sir Roger Casement. This article by C. O'Connell Galvin comes at a moment when international interest has centred in the London court where the Irish knight was doomed to die.

The Sunday AMERICAN will leave no end of the news of the day uncovered. All the New England news will be told, all the Boston news, and all the news everywhere.

There is this to be said in conclusion: Never was greater newspaper value obtainable than you will receive with tomorrow's Boston Sunday AMERICAN.

Her Child

By William F. Kirk

THEY spoke of valor and of skill,
Of heroes charging up a hill;
Of one who led these heroes well
Through smoke and lead and flying shell.
They told of how the leader fell.
"I see him now," the mother smiled:
"He was my child!"

They spoke of patience, and they told
How, when the night was growing old,
He passed along the silent line
Of warriors waiting for the sign;
They called him brave. The mother smiled:
"He was my child!"

They told of how the charge was won
O'er silent forms, past roaring gun,
And how a tall boy led them well
And let them, smiling, when he fell.
They heard her say with holy joy:
"He was my boy!"
